

Glynn Connect Mobile App

Designed to make submitting requests easier when on the go, the Glynn Connect mobile app is your direct link with Glynn County government. Snap a picture of the problem and submit it with your request. Exact locations are recorded using GPS coordinates, providing us specific details for the location of your problem. County departments can respond to the request with the personnel and equipment needed to correct the problem. These services are available to subscribers at no charge.

SUBMIT REQUESTS FOR
NON-EMERGENCY
SERVICES FROM YOUR
MOBILE DEVICE.

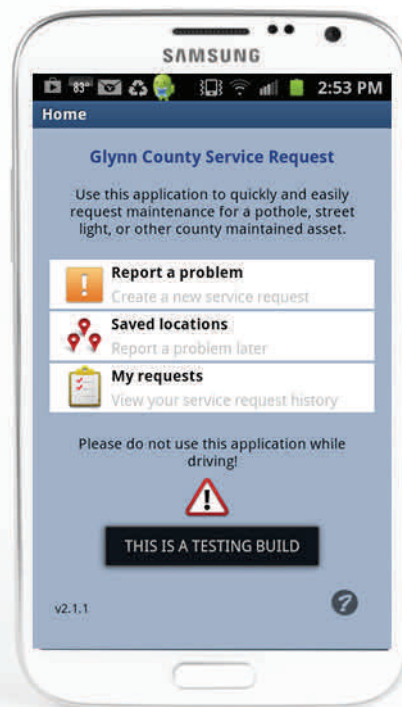

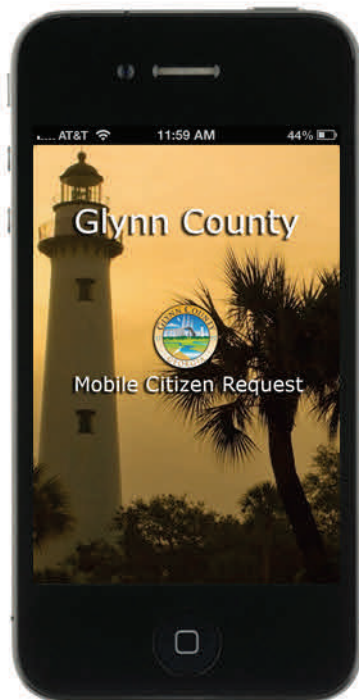

AVAILABLE FOR

ANDROID

IPHONE

Use this application to quickly and easily request maintenance for a pothole, street light, or other county maintained asset.

Report Code Enforcement violations and attach a picture from the location.

No phone call needed to report a missed garbage pickup or mosquito related problem. Simply submit the request from your mobile phone. Our Customer Service department receives a map pinpointing the exact location of your issue.

The Glynn Connect mobile app allows subscribers to attach a photograph with their service requests when submitted to Glynn County departments. Through the use of geocaching technology, the app attaches GPS coordinates for the service location. *How does this help citizens?* Citizens will no longer need to verbally describe the location of hard to pinpoint items such as potholes, downed trees or drainage ditch. GPS coordinates tell County staff exactly where the issue is, allowing for faster service. For more information on our mobile app capabilities, visit the Glynn County website at www.glynncounty.org/app.

Submit requests for: *Animal & Mosquito Control, Building & Construction, Garbage & Recycling, Property Maintenance, Street, and Drainage & Flooding.*

Download the app for free.
