GLYNN COUNTY BOARD OF COMMISSIONERS FINANCE DEPARTMENT

1725 Reynolds Street, Third Floor, Brunswick, GA 31520 912-554-7120 tmiller@glynncounty-ga.gov

December 13, 2013

Members of the Glynn County Board of Commissioners And the Citizens of Glynn County, Georgia

State law requires that all general-purpose local governments publish within six months of the close of each fiscal year a complete set of financial statements presented in conformity with generally accepted accounting principles (GAAP) and audited in accordance with generally accepted auditing standards by a firm of licensed certified public accountants. We hereby issue the comprehensive annual financial report of Glynn County, Georgia ("County") for the fiscal year ended June 30, 2013.

This report consists of management's representations concerning the finances of the County. Consequently, management assumes full responsibility for the completeness and reliability of all of the information presented in this report. To provide a reasonable basis for making these representations, management of the County has established a comprehensive internal control framework that is designed both to protect the government's assets from loss, theft, or misuse and to compile sufficient reliable information for the preparation of the County's financial statements in conformity with GAAP. Because the cost of internal controls should not outweigh their benefits, the County's comprehensive framework of internal controls has been designed to provide reasonable rather than absolute assurance that the financial statements will be free from material misstatement. As management, we assert that, to the best of our knowledge and belief, this financial report is complete and reliable in all material respects.

The County's financial statements have been audited by Karp, Ronning, & Tindol, PC, a firm of licensed certified public accountants. The goal of the independent audit was to provide reasonable assurance that the financial statements of the County for the fiscal year ended June 30, 2013, are free of material misstatement. The independent audit involved examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements; assessing the accounting principles used and significant estimates made by management; and evaluating the overall financial statement presentation. The independent auditor concluded, based upon the audit, that there was a reasonable basis for rendering an unmodified opinion that the County's financial statements for the fiscal year ended June 30, 2013, are fairly presented in conformity with GAAP. The independent auditor's report is presented as the first component of the financial section of this report.

The independent audit of the financial statements of the County was part of a broader, federally mandated "Single Audit" designed to meet the special needs of federal grantor agencies. The standards governing Single Audit engagements require the independent auditor to report not only on the fair presentation of the financial statements, but also on the audited government's internal controls and legal requirements involving the administration of federal awards.

GAAP require that management provide a narrative introduction, overview, and analysis to accompany the basic financial statements in the form of Management's Discussion and Analysis (MD&A). This letter of transmittal is designed to complement MD&A and should be read in conjunction with it. Glynn County's MD&A can be found immediately following the report of the independent auditors.

Profile of the Government

Glynn County, chartered by an Act of the Georgia General Assembly on February 5, 1777, is located along the Atlantic coast in the southeastern part of the state, and ranks as one of the top tourist areas of Georgia. Glynn County currently occupies a total area of 540 square miles and serves a population of 81,022. Glynn County is empowered to levy a property tax on both real and personal properties located within its boundaries.

Glynn County operates under the Commissioner-administrator form of government. Policy-making and legislative authority are vested in a governing Board of Commissioners (Board) consisting of a chairman and six other members. The Board is responsible, among other things, for passing ordinances, adopting the budget, appointing committees, and hiring the government's administrator, attorney, and police chief. The County's administrator is responsible for carrying out the policies and ordinances of the Board, for overseeing the day-to-day operations of the government, and for appointing the directors of the various departments. Commissioners serve four-year staggered terms, with elections held every two years. Five of the commissioners are elected by district and the two remaining commissioners are elected at large.

The County provides a full range of services extending beyond those provided by many other counties in Georgia. Certain of the services provided fall within the classic definition of "municipal services"; however, none of the services exceed the authority granted the County by general law or local acts of the Georgia General Assembly. Services provided include public safety (police and fire protection, emergency management and emergency medical services, animal control, and jail operation); the construction and maintenance of highways, streets and infrastructure; zoning and code enforcement; court-related functions; recreational activities and cultural events; tax appraisal and administration; solid waste collection; general administrative services; and outside agency support. The Glynn County Airport Commission and the Glynn County Board of Health are reported in the County's CAFR as component units as required by Governmental Accounting Standards Board (GASB) Statement No. 14, "The Financial Reporting Entity".

The annual budget serves as the foundation for the County's financial planning and control. All departments and agencies of the County are required to submit requests for appropriation to the County Administrator's Budget Team prior to the end of January each year. The Budget Team uses these requests as the starting point for developing a proposed budget. The County Administrator then presents this proposed budget to the Board for review prior to the end of May. The Board is required to hold a public hearing on the proposed budget and to adopt a final budget by no later than June 30, the close of the County's fiscal year. The appropriated budget is prepared by fund, function (e.g., public safety), and department (e.g. police). Department directors may make transfers of appropriations within a department except that they may not transfer funds into or out of personal services or capital without approval by the County Administrator. Transfers into or out of capital improvements must be approved by the Board. Transfers of appropriations between departments also require the approval of the Board. Budget-to-actual comparisons are provided in this report for each individual governmental fund for which an appropriated annual budget has been adopted. For the general fund and the fire protection fund, this comparison is presented as required supplementary information on pages E-1 through E-3. For governmental funds, other than the general fund and fire fund, with appropriated annual budgets, this comparison is presented in the supplementary data subsection of this report, which starts on page F-1. Also included in the supplementary data subsection are project-length budget-to-actual comparisons for each governmental fund for which a project-length budget has been adopted (i.e., the sales tax construction funds).

Factors Affecting Financial Condition

The information presented in the financial statements is perhaps best understood when it is considered from the broader perspective of the specific environment within which the County operates.

Local economy. Glynn County's economy reflected steady growth in previous years until fiscal year 2010 when construction and property values began to decrease. In fiscal year 2013, growth in the property tax digest as a result of new construction increased only 1.26 percent with a deflation in the digest of 2.04 percent for a net decrease of .78 percent. Accommodation excise tax revenues increased in fiscal year 2013 by 6.76 percent which was largely due to an increase in tourism visitation in 2013. Tourism is a chief reason Glynn County's unemployment rate is consistently within at least one to two percent of the rest of the state. The County participates in attracting visitors to the area by providing approximately 50% of the collected accommodation excise tax to the Brunswick Golden Isles Convention and Visitors Bureau for destination marketing. The Visitors' Bureau has stated that approximately 1.7

million visitors annually spend an estimated \$450 million in Glynn County on transportation, lodging, food, entertainment and recreation, and incidentals.

The port facilities operated by the state are another economic plus for Glynn County. An estimated \$24.2 million investment in the Georgia Ports Authority's (GPA) Brunswick facilities in FY12-14 projects has and will continue to significantly increased capacity, driving tremendous expansion in the Port of Brunswick's auto-machinery and biomass fuel trades. Projects at the Brunswick facilities include mooring dolphins at Lanier Dock, upgrades to the auto facility, a new security center on Colonel's Island, a hard car unloader, and others. The U.S. Army Corps of Engineers received \$2.025 million in FY13 and the GPA Board has approved \$3 million to supplement the federal funds for maintenance dredging. All three terminals experienced impressive cargo volume increases. Colonel's Island handled over 622 thousand units of autos and machinery for 12.5% growth in the fiscal year. All three terminals handled total tonnage of 3.1 million tons which is a 47% increase over FY12. The Port of Brunswick was able to attract a major new import client this year in Subaru; and, began exporting American-made Toyota products to Russia and the Ukraine. Brunswick is among the top three busiest ports in the nation for auto and machinery imports.

Based on current projections, a steady or slight increase the economy is expected through the next several years. To maintain the present high level of services, the County must maximize the uses of present financial resources and explore new methods of obtaining additional financial resources.

Long-term financial planning. Maintenance and upgrading of County facilities and building of new facilities have become a priority in the last few years and the County has used a capital project based 1% sales tax to fund approximately \$239 million of capital assets over the last twenty-eight years. Over the next few years an additional \$32 million in capital projects will have been funded through the fourth Special Purpose Local Option Sales Tax (SPLOST) and the fifth SPLOST which went into effect in January 2007.

Relevant Financial Policies. Glynn County's goals were developed within the framework of financial policies established by the County that provide a sound basis for future financial planning and conservative management. They include (1) a balanced annual operating budget, (2) a stable and diversified revenue structure, (3) maintenance of adequate reserves and designations of fund balances, and (4) debt and investment policies that ensure judicious management of the County's credit and available funds.

In developing and evaluating the County's accounting system, consideration is given to the adequacy of internal accounting control. Internal accounting controls are designed to provide reasonable, but not absolute, assurance regarding: (1) the safeguarding of assets against loss from unauthorized use or disposition; and (2) the reliability of financial records for preparing financial statements and maintaining accountability for assets. The concept of reasonable assurance recognizes that: (1) the cost of control should not exceed the benefits likely to be derived; and (2) the evaluation of costs and benefits requires estimates and judgments by management.

All internal control evaluations occur within the above framework. We believe the County's internal accounting controls adequately safeguard assets and provide reasonable assurance of proper recording of financial transactions.

Budgetary control is managed at the program level by the encumbrance of estimated purchase amounts before the release of purchase orders to vendors. Purchase orders that result in an overrun of program balances are not released until additional appropriations are made available. Open encumbrances are reported as reservations of fund balances at year-end for governmental funds.

Awards and Acknowledgements

The Government Finance Officers Association (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to Glynn County for its comprehensive annual financial report (CAFR) for the fiscal year ended June 30, 2012. This was the twenty-sixth consecutive year that the government has received this prestigious award. In order to be awarded a Certificate of Achievement, the government published an easily readable and efficiently organized CAFR. This report satisfied both the GAAP and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. We believe that our current CAFR continues to meet the Certificate of Achievement Program's requirements and we are submitting it to the GFOA to determine its eligibility for another certificate.

In addition, the County also received its eleventh consecutive GFOA Award for Distinguished Budget Presentation for its annual budget document for the fiscal year beginning July 1, 2012. In order to qualify for the Distinguished Budget Presentation Award, the government's budget document was judged to be proficient in several categories, including as a policy document, a financial plan, an operations guide, and a communications device.

The preparation of this report would not have been possible without the efficient and dedicated services of the entire staff of the finance department. We would like to express our appreciation to all members of the department who assisted and contributed to the preparation of this report. Credit also must be given to the Board of Commissioners for its unfailing support for maintaining the highest standards of professionalism in the management of the County's finances.

Respectfully submitted,

Tonya D. Miller Finance Director

INDEPENDENT AUDITORS' REPORT

To the Chairman and Members of the Glynn County Board of Commissioners Brunswick, Georgia

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of Glynn County, Georgia (County), as of and for the year ended June 30, 2013, and the related notes to the financial statements, which collectively comprise the County's basic financial statements as listed in the table of contents. We did not audit the financial statements of the Glynn County Health Department and the Glynn County Airport Commission, which represent 100% of the assets, net position and revenues of the discretely presented component units. Those statements were audited by other auditors whose reports have been furnished to us, and our opinion, insofar as it relates to the amounts included for the Glynn County Health Department and the Glynn County Airport Commission is based solely on the report of the other auditors

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the County's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the County's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, based on our audit and the report of other auditors, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the County, as of June 30, 2013, and the respective changes in financial position and cash flows, where applicable, for the year then ended in conformity with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and budgetary comparison information on pages C-1 and E-1 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the County's basic financial statements. The supplementary data listed in the table of contents are presented for purposes of additional analysis and are not a required part of the basic financial statements. The schedule of expenditures of federal awards is presented for purposes of additional analysis as required by U.S. Office of Management and Budget Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*, and is also not a required part of the basic financial statements.

The supplementary data listed in the table of contents and the schedule of expenditures of federal awards are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the supplementary data listed in the table of contents and the schedule of expenditures of federal awards are fairly stated in all material respects in relation to the basic financial statements as a whole.

The introductory and statistical sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated December 13, 2013, on our consideration of County's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the County's internal control over financial reporting and compliance.

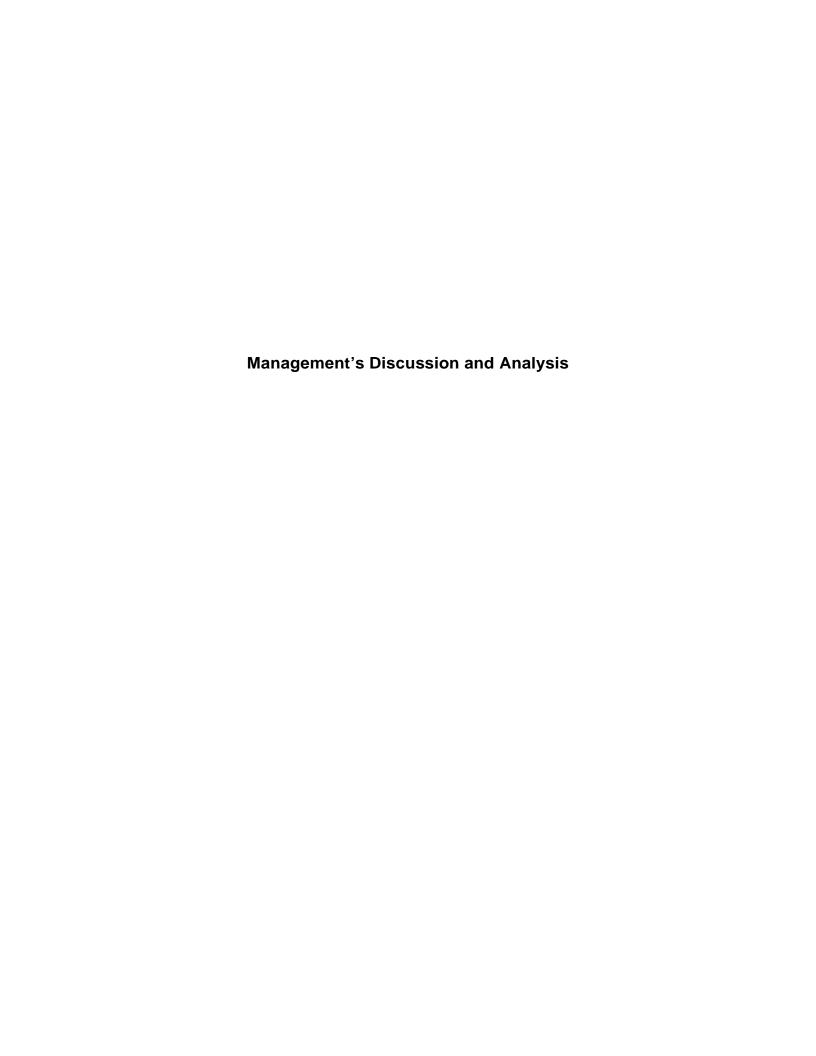

Karp, Renning & Tindel, P.C.

Savannah, Georgia December 13, 2013

A Golden Past. A Shining Future.

This page is intentionally left blank.

As management of Glynn County, Georgia, (the County) we offer readers of the County's financial statements this narrative overview and analysis of the financial activities of Glynn County, Georgia for the fiscal year ended June 30, 2013. We encourage readers to consider the information presented here in conjunction with additional information that we have furnished in our letter of transmittal, which can be found on pages A-1 through A-4 of this report.

Financial Highlights

- The assets of the County exceeded its liabilities at the close of the most recent fiscal year by \$363,088,439 (net position). Of this amount, \$70,700,078 (unrestricted net position) may be used to meet the government's ongoing obligations to citizens and creditors.
- The government's total net position decreased by \$2,224,865. More than 100% of this decrease occurred in the Governmental activities as the remainder (which was positive) was related to Business-type activities.
- As of the close of the current fiscal year, the County's governmental activities reported combined ending fund balances of \$98,511,259, a decrease of \$15,484,756.
- At the end of the current fiscal year, unassigned fund balance for the general fund was \$31,899,497 or 63.7% of total general fund expenditures.
- The County's long-term debt decreased by \$301,158 during the current fiscal year. This decrease was due to payments made on the outstanding GEFA loan and contractual obligations.

Overview of the Financial Statements

This discussion and analysis are intended to serve as an introduction to the County's basic financial statements. The County's basic financial statements comprise three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. This report also contains other supplementary information in addition to the basic financial statements themselves.

Government-wide financial statements. The *government-wide financial statements* are designed to provide readers with a broad overview of the County's finances, in a manner similar to a private-sector business.

The *statement of net position* presents information on all of the County's assets and liabilities, with the difference between the two reported as *net position*. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the County is improving or deteriorating.

The *statement of activities* presents information showing how the government's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, *regardless of the timing of related cash flows*. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g., uncollected taxes and earned but unused vacation leave).

Both of the government-wide financial statements distinguish functions of the County that are principally supported by taxes and intergovernmental revenues (*governmental activities*) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (*business-type activities*). The governmental activities of the County include general government, judicial, public safety, public works, health, welfare, culture and recreation, housing and development, and economic development. The business-type activities of the County include a solid waste collection and disposal system and a revolving loan program.

The government-wide financial statements include not only the County itself (known as the *primary government*), but also a legally separate Airport Commission for which the County is financially accountable and a Board of Health on which the County is able to impose its will. Financial information for these *component units* are reported separately from the financial information presented for the primary government itself. The government-wide financial statements can be found on pages D-1 through D-3 of this report.

Fund financial statements. A *fund* is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The County, like other state and local governments,

uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the County can be divided into three categories: governmental funds, proprietary funds, and fiduciary funds.

Governmental funds. Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for *governmental funds* with similar information presented for *governmental activities* in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between *governmental funds* and *governmental activities*.

The County maintains 20 individual governmental funds. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures, and changes in fund balances for the General Fund, Fire Protection District Fund, and Sales Tax #5 Fund, all of which are considered to be major funds. Data from the other 17 governmental funds are combined into a single, aggregated presentation. Individual fund data for each of these non-major governmental funds is provided in the form of *combining statements* elsewhere in this report.

The County adopts an annual appropriated budget for its general fund. A budgetary comparison statement has been provided for the general fund to demonstrate compliance with this budget.

The basic governmental fund financial statements can be found on pages D-4 through D-9 of this report.

Proprietary funds. The County maintains two different types of proprietary funds. *Enterprise funds* are used to report the same functions presented as *business-type activities* in the government-wide financial statements. The County uses enterprise funds to account for its Solid Waste Collection and Disposal funds and Revolving Loan fund. *Internal service funds* are an accounting device used to accumulate and allocate costs internally among the County's various functions. The County uses internal service funds to account for its administrative services, employee benefits, and property and liability insurance. Because these services predominantly benefit governmental rather than business-type functions, they have been included within *governmental activities* in the government-wide financial statements.

Proprietary funds provide the same type of information as the government-wide financial statements, only in more detail. The proprietary fund financial statements provide separate information for the Solid Waste Collection and Disposal Funds which are considered to be major funds of the County and the non-major Revolving Loan Fund is presented in the proprietary fund financial statements as another enterprise fund. Conversely, the non-major internal service funds are combined into single, aggregated presentations in the proprietary fund financial statements. Individual fund data for the non-major internal service funds is provided in the form of *combining statements* elsewhere in this report.

The basic proprietary fund financial statements can be found on pages D-10 through D-15 of this report.

Fiduciary funds. Fiduciary funds are used to account for resources held for the benefit of parties outside the government. Fiduciary funds are *not* reflected in the government-wide financial statement because the resources of those funds are *not* available to support the County's own programs. The accounting used for fiduciary funds is much like that used for proprietary funds.

The basic fiduciary fund financial statements can be found on pages D-16 and D-17 of this report.

Notes to the financial statements. The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements can be found on pages D-18 through D-44 of this report.

Other information. In addition to the basic financial statements and accompanying notes, this report also presents certain *required supplementary information* concerning the County's budget process and the County's progress in funding its obligation to provide pension benefits to its employees. Required supplementary information can be found on pages E-1 and E-6 of this report.

The combining statements referred to earlier in connection with non-major governmental funds and internal service funds are presented immediately following the required supplementary information. Combining and individual fund statements and schedules can be found on pages F-1 through F-28 of this report.

Government-wide Financial Analysis

The following table presents a summary of the Statement of Net Position for the County as of June 30, 2013 and 2012:

Summary of Net Position

| | Governmental Activities | | Business-Ty | pe Activities | Total | |
|---------------------------|-------------------------|----------------|-------------|---------------|----------------|----------------|

As noted earlier, net position may serve over time as a useful indicator of a government's financial position. In the case of the County, assets exceeded liabilities by \$363,088,439 at the close of the most recent fiscal year.

By far the largest portion of the County's net position (72%) reflects its investment in capital assets such as land, buildings, equipment and infrastructure, less any related debt used to acquire those assets that is still outstanding. The County uses these capital assets to provide services to citizens; consequently, these assets are *not* available for future spending. Although the County's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

An additional portion of the County's net position (8.8%) represents resources that are subject to external restrictions on how they may be used. The remaining balance of *unrestricted net position* may be used to meet the County's ongoing obligations to citizens and creditors.

At the end of the current fiscal year, the County is able to report positive balances in all three categories of net position for the governmental activities and business-type activities. Unrestricted net position totals \$70,700,078, an 8.7% increase over the prior year. Total net position decreased by approximately \$2.2 million from the prior year.

The following table summarizes the changes in net position for the primary government for the fiscal years ended June 30, 2013 and 2012:

Changes in Net Position

| | Governmental Activities | | Business-Type Activities | | Total | |

Governmental activities. Governmental activities lowered the County's net position by \$2.4 million, thereby accounting for all of the total decrease in the net position of the County (as business-type activities had a positive effect on net position).

- Revenues were less than spending. The County collects a special purpose local option sales tax (1 percent)
 that is used to fund a variety of capital projects. This tax ended on December 31, 2011 so only residual
 amounts of revenue were received but spending for the capital projects are continuing and many of the
 projects will take several years to complete.
- Tax revenue in 2013. Property Tax revenues increased by over \$2.3 million from the prior year. This increase in property taxes resulted from an additional millage rate for the Capital Projects Fund, less significant decreases in property tax values (than in previous years) and new growth in the tax digest. Sales and other taxes showed an increase of approximately \$1.1 million.
- Lower investment earnings. Lower interest rates resulted in approximately \$171,000 less in investment earnings.
- Net capital assets. Construction activity showed an increase in 2013 with \$13,536,351 more being added to
 the County's net capital assets than in FY2012. Most of this was a result of more capital assets in the
 governmental activities.
- Governmental expenses. Expenses in overall governmental activities decreased by approximately \$3.7 million due to decreased spending for contributions to other agencies and decreases in various departments due to budget reductions. Capital expenses were anticipated to be and were in fact higher than the previous year as several large SPLOST projects were completed, several SPLOST projects had work on them, and there were expenses in the separate Capital Projects Fund that has its own millage rate now.

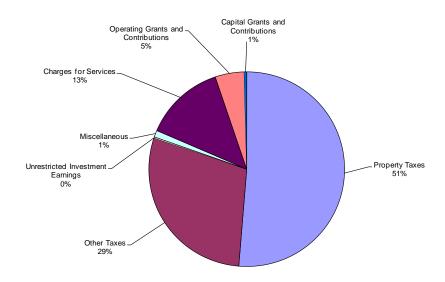

Approximately 51.3% of the County's governmental activities total revenue came from property taxes and 28.9% from sales and other taxes, while 5.39% resulted from grants, contributions, and investment earnings. Charges for various goods and services and miscellaneous revenues provided 14.4% of the total revenues. The County's expenses cover a range of services. The largest expenses (47%) are related to providing public safety which includes police and fire protection, E-911 services, animal control, 800 MHz operations, the Sheriff's Office, and the Coroner's Office.

At the end of June 2013, governmental activities expenses exceeded program revenues, resulting in the use of \$59.4 million in general revenues. Likewise, program net expenses exceeded revenues from business-type activities by \$60.434.

Expenses and Program Revenues - Governmental Activities

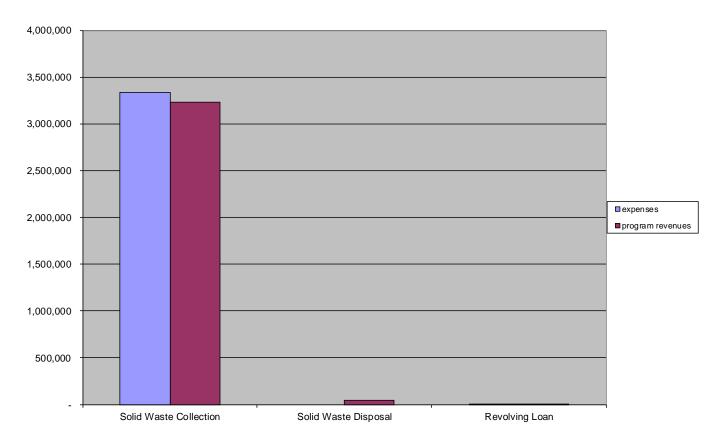

Revenues by Source - Governmental Activities

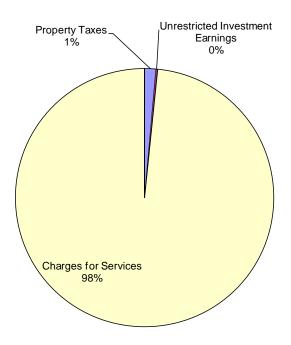

Business-type activities. Business-type activities increased the County's net position by \$224,313. Key elements of this increase are as follows.

- Solid Waste Collection Fund revenue decreased slightly by just over \$30,000. Expenses were lower than the prior year due to a decrease in spending levels.
- The Solid Waste Disposal Fund net position increased slightly by \$47,898.
- There was very little change in the net position in the Revolving Loan fund.

Expenses and Program Revenues - Business type Activities

Revenues by Source - Business-type Activities

Financial Analysis of the Government's Funds

As noted earlier, Glynn County uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental funds. The focus of the County's *governmental funds* is to provide information on near-term inflows, outflows, and balances of *spendable* resources. Such information is useful in assessing the County's financing requirements. In particular, *unassigned fund balance* may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year.

As of the end of the current fiscal year, the County's governmental funds reported combined ending fund balances of \$98,511,259, a decrease of \$15,484,756 in comparison with the prior year. Approximately 32.4% of this total amount (\$31.9 million) constitutes *unassigned fund balance* in the general fund. Assigned portions of the fund balance (\$8.4 million) are limited to the specific purposes of the funds and a portion (\$885,668) is assigned for use in the subsequent year's budget. Fund balances in the amount of \$30.7 million are restricted for specific purposes and include construction and capital outlay funded by SPLOST. Approximately 26% of the total fund balances (25,364,874) has been committed as a revenue stabilization fund as required by the County's Fund Balance policy.

The general fund is the chief operating fund of the government. At the end of the current fiscal year, unassigned fund balance of the general fund was \$31,899,497, while total fund balance amounted to \$59,404,042. As a measure of the general fund's liquidity, it may be useful to compare both unassigned fund balance and total fund balance to total fund expenditures. Unassigned fund balance represents 63.7% of total general fund expenditures. Total fund balance represents 119% of that same amount, compared to 112% in the prior year.

The fund balance of the County's general fund increased by \$1,387,408 during the current fiscal year. Key factors in this increase are as follows:

- Taxes of \$2,976,332 more than budgeted were collected.
- The Contingency budget was not completely expended which accounted for more than half of the \$2,039,216 savings in General Government.
- Public Safety total savings were \$4,322,588, most of which was in the Sheriff's Department.
- Public Works had savings of \$2,403,275.
- With the revenues being more than budgeted and the departments having such significant savings, the \$12,696,472 budgeted use of fund balance was not necessary and there was \$1,387,408 added to fund balance.

The Fire Protection District fund has a total fund balance of \$4,143,932 all of which is assigned for purposes of the fund. The fund balance increased by \$565,907. The difference in the actual increase compared to budget was the result of an overage in property and insurance premium taxes compared to budget, more actual revenue than budget (\$359,327 more), and less expenditures than budgeted (\$387,988 less).

The Sales Tax #5 fund has a total fund balance of \$20,873,124, all of which is restricted. The County began receiving revenue from this tax in fiscal year 2007 and ceased collections of the tax in December, 2011. The decrease in fund balance of \$14,704,071 was the result of expenditures for several capital projects that were underway in FY2013 as outlined on page F-33 of this report. The largest of these expenditures (\$11,802,325) was for the New Detention Center.

Proprietary funds. The County's proprietary funds provide the same type of information found in the government-wide financial statements, but in more detail.

Unrestricted net position of the Solid Waste Collection Fund at the end of the year amounted to \$2,252,476. There was a slight increase in net position of \$176,296.

The Solid Waste Disposal fund net position increased by \$47,898. The County's landfill is in the post-closure phase and there is very little current activity in this fund.

General Fund Budgetary Highlights

The Board of Commissioners amended the General Fund budget throughout fiscal year 2013. The budget amendments totaled \$12.7 million. The most significant expenditure amendments are summarized as follows:

- The use of general fund dollars for the New Detention Center was added to the budget in the amount of \$4,094,746.
- Budget re-appropriated from fiscal year 2012 to the current fiscal year accounts for \$3,576,172 in increases in appropriations in various departments in the general fund.
- The Board of Commissioners authorized a one-time COLA payment for employees during the fiscal year which amounted to \$786,358.
- Budgets for encumbrances outstanding at the end of fiscal year 2012 in the amount of \$413,540 were rebudgeted in the current fiscal year.
- Budgets appropriated from fund balance for various projects in the amount of \$2,123,461.

Although the County's final budget projected a loss of \$12,696,472 in the General Fund, the fund actually had an increase in fund balance of \$1,387,408. This difference is explained at the top of this page.

Capital Asset and Debt Administration

Capital assets. The County's investment in capital assets for its governmental and business type activities as of June 30, 2013 amounts to \$263,874,051 (net of accumulated depreciation). This investment in capital assets includes land, buildings and improvements, machinery and equipment, infrastructure, and construction in progress.

The total increase in the County's investment in capital assets for the current fiscal year was \$13,536,351 or 5.4% (a 5.4% increase for governmental activities and a 31.15% decrease for business-type activities).

Major capital asset events during the current fiscal year included the following:

- Construction in progress increased by \$13,878,801 (largely the Detention Center).
- Machinery and equipment increased by about \$2.5 million and Infrastructure increased by \$3.85 million.

Capital Assets (net of depreciation)

| | Governmental activities | | Business-type activities | | Total | |
|----------------------------|-------------------------|----------------|--------------------------|-----------|----------------|----------------|
| | 2013 | 2012 | 2013 | 2012 | 2013 | 2012 |
| Land | \$ 11,669,811 | \$ 11,669,811 | \$ - | \$ - | \$ 11,669,811 | \$ 11,669,811 |
| Buildings and improvements | 54,785,272 | 56,589,412 | - | - | 54,785,272 | 56,589,412 |
| Machinery and equipment | 10,643,764 | 10,354,260 | 65,602 | 95,284 | 10,709,366 | 10,449,544 |

| Rights of Way | 117,279,763 | 117,240,495 | - | - | 117,279,763 | 117,240,495 |
| Construction in progress | 17,074,790 | 3,195,989 | - | | 17,074,790 | 3,195,989 |
| Total | \$ 263,808,449 | \$ 250,242,416 | \$ 65,602 | \$ 95,284 | \$ 263,874,051 | \$ 250,337,700 |

Additional information on the County's capital assets can be found in note III.D. on pages D-31 through D-32 of this report.

Long-term debt. At the end of the current fiscal year, the County had one GEFA loan outstanding in the amount of \$2,177,964 which was borrowed on behalf of the St. Simons Island Land Trust on August 9, 2007. Payments from the Land Trust to the County are used to fund the debt service. The County has also entered into an intergovernmental lease agreement with the Brunswick and Glynn County Development Authority and has an unconditional obligation to provide sufficient funds for debt service payments for the Authority's Series 2010 \$5.3 million revenue bonds. Payments from the Gateway Behavioral Health Services rental agreement are used to fund the debt service. The County has no general obligation debt.

Additional information on the County's long-term debt can be found in note III.F. on pages D-34 through D-36 of this report.

Economic Factors and Next Year's Budgets and Rates

- The unemployment rate for the County is currently 10.0%, which is 0.4% lower than last year. This is slightly higher than the state's unemployment rate of 9 percent.
- Since tourism is a major industry in Glynn County, trends in accommodation excise and sales taxes are good indicators of the local economy. Accommodation excise tax receipts were 6.7% above the last fiscal year. Local option sales tax receipts were 6.3% more than last year.

These factors were considered in preparing the County's budget for the 2014 fiscal year.

At the end of the current fiscal year, unassigned fund balance in the general fund amounted to \$31,899,497. The County used \$885,668 to balance the 2014 budget and has appropriated \$7.8 million of the unassigned fund balance for spending in the 2014 fiscal year budget in order to fund new projects and complete projects which were budgeted but not spent in fiscal year 2013.

Requests for Information

This financial report is designed to provide a general overview of Glynn County's finances for all those with an interest in the County's finances. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to the Glynn County Finance Director, 1725 Reynolds Street, Suite 300, Brunswick, Georgia 31520.

A Golden Past. A Shining Future.

| \$ | (2,734,000) 16,824,161 14,090,161 | (15,484,756) 113,996,015 \$ 98,511,259 |

RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES AND CHANGES IN FUND BALANCES OF GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES

FOR THE YEAR ENDED JUNE 30, 2013

| Net change in fund balances - total governmental funds: | \$ | (15,484,756) |
|---|----------------------|--------------|
| Amounts reported for Governmental Activities in the Statement of Activities are different because: | | |
| Governmental funds report outlays for capital assets as expenditures because such outlays use current financial resources. In contrast, the Statement of Activities reports only a portion of the outlay as expense. The outlay is allocated over the assets' estimated useful lives as depreciation expense for the period. | | |
| This is the amount by which capital outlays \$21,000,036 exceeded depreciation \$7,430,426 in the current period. | | 13,569,610 |
| Governmental funds report the entire net sales price (proceeds) from sale of an asset as revenue because it provides current financial resources. In contrast, the Statement of Activities reports only the gain on the sale of the assets. Thus, the change in net position differs from the change in fund balance by the net book value of the asset sold. | | (3,577) |
| Governmental funds report debt proceeds as current financial resources. In contrast, the Statement of Activities treats such issuance of debt as a liability. Governmental funds report repayment of debt principal as an expenditure, In contrast, the Statement of Activities treats such repayments as a reduction in long-term liabilities. This is the amount by which proceeds exceeded payments. | | 301,158 |
| Governmental funds report the effect of bond issuance costs and discounts when debt is first issued, whereas these amounts are deferred and amortized in the statement of activities. Interest is recognized as it accrues, regardless of when it is due. The net effect of these differences is as follows: Amortization of premium Amortization of issuance costs | 808 (9,540) | |
| Interest expense - debt obligations | 748 | (7,984) |
| Revenues in the statement of activities that do not provide current financial resources are not reported as revenues in the funds. | | (523,651) |
| Some expenses reported in the statement of activities do not require the use of current financial resources and these are not reported as expenditures in governmental funds: | | |
| Compensated absences Claims and judgements | (4,748) (215,000) | (219,748) |
| The current year's decrease in the net OPEB liability creates a balance sheet item while decreasing net expenses of the functions on the governmental wide statements. | | (80,230) |
| Internal service funds are used by management to charge the costs of certain activities such as insurance to individual funds. The net revenue (expense) of the internal service funds is reported with governmental activities. | | - |
| Change in net position of governmental activities | \$ | (2,449,178) |

The accompanying notes are an integral part of these financial statements.

A Golden Past. A Shining Future.

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The County financial statements are prepared in accordance with generally accepted accounting principles (GAAP). The Governmental Accounting Standards Board (GASB) is responsible for establishing GAAP for state and local governments through its pronouncements (Statements and Interpretations). The more significant accounting policies established in GAAP and used by the County are discussed below.

A. Reporting entity

The County is a political subdivision of the State of Georgia and is governed by a seven member Board of County Commissioners. Five members represent a geographical district within the County, while two members represent the County at large. There are additional officers elected countywide. State law pertaining to county government provides for the independent election of these county officials. The officials are all part of the County's legal entity. These elected officials are the Sheriff, Tax Commissioner, State Court Judge, Magistrate Court Judge, Probate Court Judge, Clerk of Superior Court, Clerk of State Court, and the Coroner. The offices of the independently elected officials are not separate from the County and therefore are reported as part of the primary government.

The state constitution and state law pertaining to county government provide for the independent election of the Superior Court Judges and the District Attorney of the Brunswick Judicial Circuit. The cost of operations of the Superior Court Judges and the District Attorney Office is shared with the State of Georgia and other counties in the Judicial Circuit. Only that portion of the cost for which the County is responsible is reported in these financial statements.

The County entered into an intergovernmental agreement with the Georgia Circuit Public Defender Office of the Brunswick Judicial Circuit to provide for criminal indigent defense. The cost of operations is shared with the State and other counties in the Circuit. Only the portion of the costs for which the County is responsible is reported in these financial statements.

The County has implemented the Governmental Accounting Standards Board Statement 14 "The Financial Reporting Entity". The financial reporting entity consists of (a) primary government, (b) organizations for which the primary government is financially accountable, and (c) other organizations for which the nature and significance of their relationship with the primary government are such that exclusion would cause the reporting entity's financial statements to be misleading or incomplete. The nucleus of a financial reporting entity usually is a primary government; however, a governmental organization other than a primary government (such as a component unit, a joint venture, a jointly governed organization, or another stand alone government) serves as the nucleus for its own reporting entity when it issues separate financial statements.

The County has met the criteria for classification as a primary government. The County has a separately elected governing body, is legally separate and is fiscally independent of other state and local governments. All funds, organizations, institutions, agencies, departments, and officers that are not legally separate of the primary government, for financial reporting purposes, are part of the primary government and are included in the financial statements of the County.

1. Discretely Presented Component Units

The component unit columns in the government-wide financial statements include the financial data of the County's component units. They are reported in separate columns to emphasize that they are legally separate from the County.

<u>Glynn County Airport Commission</u> – The Airport Commission (the "Commission"), which operates the County's two airports, was created by ordinance of the Board of Commissioners of Glynn County, Georgia to have perpetual existence. The Commission's powers and its relationship with the Brunswick and Glynn County Development Authority (the "Authority") distinguish it as separate from the County. The Commission's Board is appointed by the Authority and, in the

event of dissolution, all the Commission's real and personal, tangible and intangible property will be turned over to the Authority. A significant amount of property carried on the Commission's financial statements was deeded to the County by the Federal Government and leased by the County to the Authority. The County approves the Commission's budgets and subleases of property. Complete financial statements of the Commission can be obtained from its administrative offices at 295 Aviation Parkway, Brunswick, Georgia 31525.

Glynn County Board of Health – The Glynn County Board of Commissioners is responsible for appointing a voting majority of the members of the Glynn County Board of Health. The County appoints four of the seven members of the Board of Health's governing board. The County has the authority to modify and approve the Board of Health's budget and the ability to approve environmental health service fees. Executive management is by the State, and all employees are hired by the Board of Health, but subject to the approval of the State Department of Human Resources Services. The Board of Health is made up of two component units, which are the Glynn County Public Health Center and the Coastal Area Community Mental Health/Mental Retardation/Substance Abuse Center. The Board of Health through its component units provides health, mental health, mental retardation and substance abuse services to citizens of Glynn, Camden, Liberty, Long and McIntosh counties under a contract with the Georgia Department of Human Resources. Complete financial statements of the Board of Health can be obtained from its administrative offices at 2747 Fourth Street, Georgia 31520.

2. Joint Ventures

The County is a participant with the City of Brunswick (the "City") in a joint venture to provide hospital related health care to their citizens and the citizens of nearby counties. The Glynn-Brunswick Memorial Hospital Authority was created pursuant to the provisions of the Hospital Authority Law of the State of Georgia and a joint resolution of the respective Boards of Commissioners of the County and City. The Authority appoints its governing board from lists provided equally by the County and City. The Hospital Authority's complete financial statements can be obtained from the administrative offices of the Hospital Authority at 3100 Kemble Avenue, Brunswick, Georgia 31520.

The County is also a participant with the City of Brunswick for the purpose of developing, promoting and expanding economic development through the Brunswick and Glynn County Development Authority. The Authority was created by an act of the General Assembly of the State of Georgia. Authority board members are appointed by joint resolution of the Boards of Commissioners of the County and City. The County has contracted with the Authority to carry-out certain economic development activities. In return, the County has agreed to pay the Authority sufficient funds to conduct these activities. During the year ended June 30, 2013, the County appropriated \$800,000 to the Authority. Complete financial statements of the Authority can be obtained from its administrative offices at 4 Glynn Avenue, Brunswick, Georgia 31520.

Under Georgia law, the County, in conjunction with other cities and counties in the nine county coastal Georgia region, is also a member of the Coastal Regional Commission (the "Commission") and is required to pay annual dues thereto. During its year ended June 30, 2013, the County paid \$75,273 in such dues. Membership in the Commission is required by the Official Code of Georgia Annotated (OCGA) Section 50-8-34 which provides for the organizational structure of the Commission in Georgia. The Commission membership includes the chief elected official of each county and municipality of the area. OCGA 50-8-39.1 provides that the member governments are liable for any debts or obligations of a regional development center. Separate financial statements may be obtained from Coastal Regional Commission, 127 F Street, Brunswick, Georgia 31520.

3. County Agency Funds

Certain County officials collect and disburse taxes, fees, fines, etc. Separate records of accountability are maintained for such receipts. For purposes of this report, these records are included as a part of agency funds, with remittances to the General Fund and other funds where they are recorded as revenue. Operating costs for these officials are included as a part of the County's General Fund. These units include:

Tax Commissioner Clerk of Superior Court Probate Court Juvenile Court Child Support Receiver Clerk of State Court Sheriff's Office Magistrate Court

B. Government-wide and fund financial statements

The basic financial statements include both government-wide (based on the County as a whole) and fund financial statements. While the previous model emphasized fund types (the total of all funds of a particular type), in the new reporting model the focus is on either the County as a whole or major individual funds (within the fund financial statements). Both the government-wide and fund financial statements (within the basic financial statements) categorize primary activities as either governmental or business type. In the government-wide Statement of Net Position, both the governmental and business-type activities columns (a) are presented on a consolidated basis by column, (b) and are reflected, on a full accrual, economic resource basis, which incorporates long-term assets and receivables as well as long-term debt and obligations.

The government-wide Statement of Activities reflects both the gross and net cost per functional category (general government, judiciary, public safety, public works, etc.), which are otherwise being supported by general government revenues (property, sales and use taxes, certain intergovernmental revenues, fines, permits and charges, etc.). The Statement of Activities reduces gross expenses (including depreciation) by related program revenues, operating and capital grants and contributions. The program revenues must be directly associated with the function or a business-type activity. The operating grants include operating-specific and discretionary (either operating or capital) grants while the capital grants column reflects capital-specific grants. Program revenues include charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a function or segment, and grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment.

The net cost (by function or business-type activity) is normally covered by general revenue (property, sales and other taxes, intergovernmental revenues, investment income, etc.). Historically, the previous model did not summarize or present net cost by function or activity.

The government-wide focus is more on the sustainability of the County as an entity and the change in aggregate financial position resulting from the activities of the fiscal period. In the process of aggregating data for the statement of the net position and the statement of activities, some amounts reported as interfund activity and balances in the funds are eliminated or reclassified in the government-wide financial statements.

The fund financial statements are, in substance, very similar to the financial statements presented in the previous model. Emphasis here is on the major funds in either the governmental or business-type categories. Non-major funds (by category) or fund type are summarized into a single column.

Unless an internal service fund is combined with the business-type activities (deemed to be an infrequent event), totals on the business-type activity fund statements should directly reconcile to the business-type activity column presented in the government-wide statements.

The governmental funds major fund statements in the fund financial statements are presented on a current financial resources measurement focus and modified accrual basis of accounting. This is the manner in which these funds are normally budgeted. This presentation is deemed most appropriate to (a) demonstrate legal and covenant compliance, (b) demonstrate the source and use of liquid resources, and (c) demonstrate how the County's actual experience conforms to the budget or fiscal plan. Since the governmental fund statements are presented on a different measurement focus and basis of accounting than the government-wide statements' governmental column, a reconciliation is presented following each statement, which briefly explains the adjustment necessary to transform the fund based financial statements into the governmental column of the government-wide presentation.

The County's fiduciary funds are presented in the fund financial statements by type (pension and agency). Since by definition these assets are being held for the benefit of a third party (other local governments, private parties, pension participants, etc.) and cannot be used to address activities or obligations of the government, these funds are not incorporated into the government-wide statements.

The focus of the revised model is on the County as a whole and the fund financial statements, including the major individual funds of the governmental and business-type categories, as well as the fiduciary funds, (by category) and the component units. Each presentation provides valuable information that can be analyzed and compared (between years and between governments) to enhance the usefulness of the information.

C. Basis of presentation

The financial transactions of the County are recorded in individual funds. Each fund is accounted for by providing a separate set of self-balancing accounts that comprises its assets, liabilities, reserves, fund equity, revenues and expenditures/expenses. The various funds are reported by generic classification within the financial statements.

GASB Statement 34 sets forth minimum criteria (percentage of the assets, liabilities, revenues or expenditures/expenses of either fund category or the governmental and enterprise combined) for the determination of major funds. The non-major funds are combined in a column in the fund financial statements and detailed in the combining section.

The County uses the following fund types:

1. Governmental Funds:

The focus of governmental fund measurement (in the fund financial statements) is upon determination of financial position and changes in financial position (sources, uses, and balances of financial resources) rather than upon net income. The following is a description of the governmental funds of the County:

- a. **General Fund** (a major fund) is the general operating fund of the County. It is used to account for all financial resources except those required to be accounted for in another fund.
- b. Special Revenue Funds are used to account for and report the proceeds of specific revenue sources that are restricted or committed to expenditures for specified purposes other than debt service or capital projects. The major fund, (Fire Protection District) is used to account for property tax and other resources used in providing fire protection services for County residents.
- c. Capital Projects Funds are used to account for financial resources that are restricted, committed, or assigned to expenditure for capital outlays, including the acquisition or construction of capital facilities and other capital assets (other than those financed by Business-type/Proprietary Funds). The major fund, (Sales Tax 5), is used to account for the proceeds of a special one cent sales tax adopted by referendum and expenditures for roads, drainage, equipment and other improvements are accounted.

2. Proprietary Funds:

Proprietary funds are reported using the economic resources measurement focus. The generally accepted accounting principles applicable are those similar to businesses in the private sector. The following is a description of the Proprietary Funds of the County:

- a. Enterprise Funds are required to be used to account for operations for which a fee is charged to external users for goods or services and the activity (a) is financed with debt that is solely secured by a pledge of the net revenues, (b) has third party requirements that the cost of providing services, including capital costs, be recovered with fees and charges or (c) has a pricing policy designed for the fees and charges to recover similar costs. The major fund, (Solid Waste Collection and Solid Waste Disposal), accounts for business-type activities for the provision of solid waste collection and disposal services to the residents of the County.
- b. Internal Service Funds account for the County's insurance claims relating to health, life, workers compensation, unemployment, automobile and property damage, general liability, personal injury and errors and omissions. The internal service funds also account for the expense of normal County administration services that are provided to other departments or funds of the County on a cost-reimbursement basis.

3. Fiduciary Funds:

a. Fiduciary Funds are used to report assets held in a trustee or agency capacity for others and therefore are not available to support County programs. The reporting focus (economic resources measurement focus) is upon net position and changes in net position and employs accounting principles similar to proprietary funds. Trust and Agency Funds are used to account for the pension trust fund and agency funds, which are custodial in nature. The County has one pension trust fund that accounts for the retirement benefits of the County's employees. There are eight agency funds, which account for the receipts and disbursements of funds by the tax commissioner, clerk of superior court, probate court, juvenile court, child support receiver, clerk of state court, sheriff's office, and magistrate court.

4. Non-Current Governmental Assets/Liabilities:

GASB Statement 34 eliminates the presentation of Accounts Groups, but provides for these records to be maintained and incorporates the information into the Governmental column in the government-wide Statement of Net Position.

D. Basis of Accounting

Basis of accounting refers to the point at which revenues or expenditures/expenses are recognized in the accounts and reported in the financial statements. It relates to the timing of the measurements made, regardless of the measurement focus applied.

The County exclusively follows the standards set forth by the GASB and has implemented accounting standards through GASB statement number 63. The Governmental Funds in the Fund Financial Statements are presented on a modified accrual basis.

1. Accrual:

All proprietary funds, the pension trust fund, and agency funds are accounted for using the accrual basis of accounting. Revenues are recognized when earned and expenses are recognized when incurred.

2. Modified Accrual:

All governmental funds are accounted for using the modified accrual basis of accounting. Under the modified accrual basis of accounting, revenues are recorded when susceptible to accrual; i.e., both measurable and available. "Available" means collectible within the current period or soon enough thereafter to be used to pay liabilities of the current period, usually 60 days. Revenues considered susceptible to accrual are property taxes, charges for services, and investment income. In applying the "susceptible to accrual" concept to intergovernmental revenues pursuant to GASB Statement 33, the provider should recognize liabilities and expenses and the recipient should recognize receivables and revenue when the applicable eligibility requirements, including time requirements, are met. Resources transmitted before the eligibility requirements are met should, under most circumstances, be reported as advances by the provider and deferred revenue by the recipient. Expenditures are generally recognized under the modified accrual basis of accounting when the related liability is incurred. The exception to this general rule is that principal and interest on general obligation long-term debt is recognized when due.

E. Assets, Liabilities and Fund Equity

1. Deposits and Investments

The County has defined cash and cash equivalents to include cash on hand, demand deposits, cash with fiscal agent, and short term investments with original maturities of three months or less from the date of acquisition. Investments are stated at fair value, (quoted market price or the best estimate thereof).

2. Receivables

In the fund financial statements, material receivables in governmental funds include revenue accruals such as property taxes, grants and other similar intergovernmental revenues since they are usually both measurable and available. Nonexchange transactions collectible but not available are deferred in the fund financial statements in accordance with modified accrual basis of accounting, but not deferred in the government-wide financial statements in accordance with the accrual basis. Accounts receivable comprise the majority of proprietary fund receivables. Allowances for uncollectible accounts receivable are based upon historical trends and the periodic aging of accounts receivable.

The major receivable for the County is property taxes receivable. Real and personal property taxes are levied after acceptance of the County's tax digest by the State of Georgia Department of Revenue. Property taxes were levied and mailed on September 15, 2012. The taxes were based on January 1, 2012 assessed values and were due November 15, 2012, after which date liens can be attached. Motor vehicle taxes are assessed January 1, based on values on January 1; due dates are based on the birth date of the registered owner.

The County bills and collects its own property taxes and also collects various taxes for the Glynn County Board of Education, the City of Brunswick, and the State of Georgia. Collection of the County's taxes and for the other government agencies is the responsibility of the Tax Commissioner's office, which is accounted for as an agency fund. County property tax revenues are recognized when levied to the extent they result in current receivables.

3. Inventories and Prepaid Items

Inventory is valued at cost, determined on a first-in, first-out basis. Inventory in the General Fund consists of expendable supplies held for consumption. The cost is recorded as an expenditure in the General Fund at the time the inventory is consumed (consumption method). Reported General Fund inventory is equally offset by a reservation of fund balance which indicates that it does not constitute an "available spendable resource" even though it is a component of net current assets.

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items.

4. Capital Assets

Capital assets, which include property, plant, equipment, and infrastructure assets (e.g., roads, bridges, rights of way, and similar items), are reported in the applicable governmental or business-type activities column in the government-wide financial statements. Capital assets are defined by the County as assets with an initial, individual cost of \$5,000 or more and an estimated useful life in excess of one year. Capital assets are recorded at historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair market value at the date of donation.

In the case of initial capitalization of infrastructure assets, those that were acquired prior to fiscal year 2003 were recorded at their current replacement cost adjusted by the implicit price deflator index for governments to the base year of either 1980 or the actual construction year. Interest incurred during the construction phase of capital assets of business-type activities is included as part of the capitalized value of the assets constructed. Infrastructure assets acquired prior to 1980 are included in the amounts reported.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend its useful life are not capitalized. Major outlays for capital assets and improvements are capitalized as projects are constructed.

Depreciation for capital assets is computed using the straight-line method over the following estimated useful lives:

Buildings7-50 yearsImprovements other than buildings30 yearsMachinery and equipment2-30 yearsRoads30 yearsBridges50 yearsStormwater systems40 yearsTraffic Signals20 years

5. Long-Term Liabilities

In the government-wide financial statements and proprietary fund types in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund type Statement of Net Position. Bond premiums and discounts, as well as issuance costs, are deferred and amortized over the life of the bonds using the straight-line method. Bond issuance costs are reported as deferred charges and amortized over the term of the related debt.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

The County has various insurance coverages provided through self-insurance plans, which are accounted for in the Internal Service Funds. Claims incurred and reported to the County are shown as accounts payable in the Internal Service Funds. Claims incurred but not reported are determined using third-party administrator and historical estimates. These estimated liabilities are recorded as accrued liabilities in the Internal Service Funds.

6. Compensated Absences

The liability for compensated absences has been accrued. In governmental funds, liabilities are not considered current until they are expected to be liquidated with expendable available financial resources; therefore, only the current liability is accrued in the governmental funds. The total liability for proprietary funds is recorded in the proprietary fund type. The County's policy is to permit employees to accumulate earned but unused vacation and sick pay benefits. Employees of the County may carry over a maximum of 400 hours (some fire department employees may carry over 600 hours) of vacation to the next year. The accumulated benefits will be liquidated in future years as employees elect to use them. In the normal course of business, all payments of these accumulated benefits will be funded from appropriations of the year in which they are to be paid. All compensated absences are accrued when incurred in the government-wide, proprietary, and fiduciary fund financial statements. A liability for these amounts is reported in governmental funds only if they have matured, for example, as a result of employee resignations and retirements. No liability is recorded for non-vesting accumulating rights to receive sick pay benefits.

An employee can accrue an unlimited number of sick leave days. Sick leave can be taken only for personal illness or illness of an immediate family member. The accumulated unused sick leave is \$7,367,258 at June 30, 2013.

7. Equity Classifications

Fund equity at the governmental fund financial reporting level is classified as "fund balance". Fund equity for all other reporting is classified as "net position".

Fund balance is reported in the governmental funds financial statements and generally represents the difference between current assets and current liabilities. Fund balance classifications represent a hierarchy based primarily on the extent to which the County is bound to honor constraints on specific purposes for which amounts in those funds can be spent. Fund balances are classified as follows:

- a) Nonspendable Fund balances are classified as nonspendable when amounts cannot be spent because they are either i) in nonspendable form or ii) they are legally or contractually required to be maintained intact. The County includes items that are not expected to be converted to cash such as inventories and prepaid amounts.
- b) **Restricted** Fund balances are reported as restricted when their use is restricted for specific purposes including i) constraints on funds externally imposed by creditors, grantors, contributors, or laws or regulations of other governments, or ii) constraints imposed by law through constitutional provisions or enabling legislation.

- c) Committed Fund balances are reported as committed if their use is for a specific purpose as approved by formal action of the Board of Commissioners (majority vote). Amounts committed cannot be used for any other purpose unless the Board of Commissioners removes or changes the specific use by approving such action through resolution at a Commission meeting. Budget resolutions are considered a plan for specific use.
- d) Assigned Fund balances are reported as assigned when constrained by the County's intent to use the funds for specific purposes that are neither restricted nor committed. Assigned fund balance includes i) all remaining amounts (except negative balances) reported in governmental funds, other than the General fund, that are not classified as nonspendable, restricted or committed, and ii) amounts appropriated to eliminate a projected budget deficit in the subsequent year. The Board of Commissioners are responsible for assigning fund balance as authorized by the County's adopted fund balance policy.
- e) **Unassigned** Fund balances are reported as assigned when the balances do not meet any of the above four criterion for classification. The County reports positive unassigned fund balance in only the General Fund. Negative unassigned fund balances may be reported in all governmental funds.

For purposes of fund balance disbursement, unless otherwise approved by the Board of Commissioners, the County will expend restricted fund balance when an expenditure is incurred for which both restricted and unrestricted fund balance is available. Next the County will expend committed fund balance when an expenditure is paid for which unrestricted fund balance is available. The County would next disburse fund balance assigned for purposes of the fund before disbursing other assigned fund balance amounts. In the General Fund, the County would disburse unassigned fund balance prior to disbursing fund balance assigned for financial policy reserve levels or amounts assigned to eliminate subsequent year's budget deficit.

Equity is classified as net position and displayed in three components in the government-wide financial statements.

- a) Net investment in capital assets consists of capital assets including restricted capital assets, net of accumulated depreciation and reduced by the outstanding balances of any bonds, mortgages, notes, or other borrowings that are attributable to the acquisition, construction, or improvement of those assets.
- b) **Restricted net position** consist of net position with constraints placed on the use either by (1) external groups such as creditors, grantors, contributions, or laws or regulations of other governments; or (2) law through constitutional provisions or enabling legislation.
- c) **Unrestricted net position** consists of net position that does not meet the definition of "restricted" or "net investment in capital assets".

When both restricted and unrestricted assets are available for certain uses, the County follows the policy of utilizing restricted resources prior to applying unrestricted resources.

F. Revenues, Expenditures and Expenses

1. Operating and Non-operating Revenues and Expenses

Operating revenues and expenses for proprietary funds are those that result from providing services and producing and delivering goods and or services. Also included are all revenues and expenses not related to capital and related financing, non-capital financing, or investing activities. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses. When both restricted and unrestricted resources are available for use, the County's policy is to use restricted resources first, then unrestricted resources as needed.

2. Expenditures/Expenses

In the government-wide financial statements, expenses are classified by function for governmental activities. Administrative overhead charges are made to various functions and are included in direct expenses. In the fund financial statements, governmental fund expenditures are classified by character, i.e. current (further classified by function), debt service, and capital outlay. Proprietary fund expenses are classified as operating and non-operating.

In the fund financial statements, governmental funds report expenditures of current financial resources. Proprietary funds report expenses relating to use of economic resources.

3. Interfund Transactions

Interfund transactions are reflected as loans, services provided, reimbursement or transfers. Loans are reported as receivables and payables as appropriate and are subject to elimination upon consolidation. Services provided, deemed to be at market or near market rates, are treated as revenues and expenditures/expenses. Reimbursements are when one fund incurs a cost, charges the appropriate benefiting fund and reduces its related cost as a reimbursement. All other interfund transactions are treated as transfers. Transfers between governmental or proprietary funds are netted as part of the reconciliation to the government-wide columnar presentation.

4. Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that may affect the amounts reported in the financial statements and the related notes. Accordingly, actual results could differ from these estimates.

II. STEWARDSHIP, COMPLIANCE, AND ACCOUNTABILITY

A. Deficit Net Position

The Solid Waste Disposal Fund has unrestricted net liability of \$91,759. The deficit resulted when landfill post-closure expenses were recorded. The County expects that the deficit will be reversed by interest earnings in the next ten years.

III. DETAILED NOTES ON ALL FUNDS

A. Deposits and Investments

General:

Individual bank accounts and investments are maintained in each fund of the County. The cash and investments of the Glynn County Defined Benefit Pension Plan (GCDBPP) are also held separately and reported within the Pension Trust Fund.

Deposits:

Custodial Credit Risk for deposits is the risk that, in the event of bank failure, a government's deposits may not be returned to it. At June 30, 2013 all of the County's deposits were either covered by federal depository insurance, collateral pledged or collateralized through a multiple financial institution collateral pool.

Georgia law governs collateral requirements and forms of collateral under O.C.G.A. Section 45-8-12 which is incorporated by reference within the County's Investment Policy. The County has no custodial credit risk policies requiring additional collateral. In summary, Georgia law states:

- All deposits shall be collateralized within 10 days of deposit by a surety bond, a guarantee of insurance, or collateral.
- The face value of any surety bond, guarantee of insurance or collateral shall be at least 110% of the public funds being secured, net of deposit insurance.
- If a depository elects the pooled method (O.C.G.A. Section 45-8-13.11), the aggregate market value of pledged securities may not be less than 110% of the daily pool balance.

Authorized security for deposits enumerated under law includes surety bonds, FDIC insurance, obligations of the United States or the State of Georgia, obligations of Georgia counties or municipalities, bonds of any Georgia public authority, industrial revenue bonds of any Georgia development authority, and obligations of any subsidiary corporation of the United States government fully guaranteed by the United States (such as Federal Home Loan Bank, Federal National Mortgage Association, etc).

Investments:

In its investment of both public and pension trust funds, the County follows state statutes and adopted investment policies. As of June 30, 2013, the investments of the Primary Government and the GCDBPP were:

| | Average | | Maturities in Years | | | | | | | |
|---------------------|---------|-------------------|---------------------|------------|----|-----------|----|-----------|----|------------|
| | Credit | | | Less | | | | | | Greater |
| | Rating | Fair Value | | than 1 | | 1 to 3 | | 4 to 5 | | than 5 |
| Primary government: | | | | | | | | | | |
| Georgia Fund 1 | Aaa | \$ 41,036,891 | \$ | 41,036,891 | \$ | - | \$ | - | \$ | - |
| Pension Trust Fund: | | | | | | | | | | |
| Corporate bonds | Α | 4,614,028 | | 452,523 | | 1,149,742 | | 1,154,204 | | 1,857,559 |
| Corporate bonds | AA | 461,616 | | - | | - | | 461,616 | | - |
| Corporate bonds | AAA | 331,863 | | - | | - | | 331,863 | | - |
| Corporate bonds | BBB | 15,544,493 | | 953,334 | | 2,468,291 | | 3,811,482 | | 8,311,386 |
| Domestic stock | NR | 42,780,747 | | 42,780,747 | | - | | - | | - |
| Government Bonds | AAA | 301,547 | | 301,547 | | - | | - | | - |
| | | \$ 105,071,185 | \$ | 85,525,042 | \$ | 3,618,033 | \$ | 5,759,165 | \$ | 10,168,945 |

Under state law, investments of the County's public funds may be placed in obligations of (or obligations guaranteed by) the U.S. government, obligations of agencies of corporations in the U.S. government, obligations of any state or any political subdivision of any state, certificates of deposit or time deposits of financial institutions with deposits insured by FDIC, prime bankers acceptances, repurchase agreements, and the Georgia Fund 1. During the year the County invested public funds in certificates of deposits and time deposits of local banks, U.S. Government obligations, obligations of agencies guaranteed by the U.S. Government, repurchase agreements through local banks, and the Georgia Fund 1.

State law also governs the investment of retirement funds (O.C.G.A. 47-20-84) and limits investments to maximum concentrations by investment category (at cost). The County's defined benefit plan qualifies as a "large retirement system", a designation which allows the plan additional investments in equity securities.

The Georgia Fund 1 is considered to be a 2a7-like-pool that operates in a manner consistent with the SEC's Rule 2a7 of the Investment Company Act of 1940. Georgia Fund 1 was created under O.C.G.A. 36-83-8 and is managed by the State of Georgia's Office of the State Treasurer. The pool is not registered with the SEC as an investment company. The fair value of the pool is the same as the value of the pool shares. As a public fund, Georgia Fund 1 is exempt from any disclosure of custodial credit risk.

Deposit and investment transactions are subject to a variety of risks. The County seeks to promote the safety of principal, provide adequate liquidity for operational needs, earn market rates of return on investments consistent with liquidity needs and investment quality, and conform with legal requirements.

Interest rate risk is the risk that changes in interest rates that will adversely affect the value of an investment. The County does not have a policy that addresses this risk.

Credit risk is the risk that an issuer or counterparty to an investment will not fulfill its obligations. The County does not have a policy that addresses this risk. GCDBPP policies minimize credit risk by allowing investments in debt instruments of corporations rated "Bank Investment Grade" by Moody's Rating Service and Standard & Poor's Rating Service.

All of the GCDBPP's investments in U.S. Treasury and Agency securities carry the explicit guarantee of the U.S. government.

Concentration of credit risk is the risk of loss attributed to the magnitude of an investment in a single issuer. Disclosures are required for any issuer that represents 5% of more of total investments, exclusive of mutual funds, external investment pools and investments issued or guaranteed by the U.S. government. The GCDBPP Investment Policy seeks a diversified portfolio of fully negotiable, equity, fixed income, and money market securities, with the following maximum investment limits, stated at cost:

- 1. A minimum of 25% of the fund assets should be invested in fixed income and fixed maturity securities with a maximum of 65% of the fund allowable.
- 2. A maximum of 75% of the total portfolio may be invested in common stocks.
- 3. The maximum investment in any one equity security is limited to 2% of the total portfolio value at the time the investment is made. The maximum investment in any one macro-economic sector will not exceed 15% and the maximum position for any one common stock is to be no more than 5% of the entire portfolio.

Deposits and investments are reconciled between the financial statements and note disclosure as follows:

| Basic financial statements: Cash and investments Pension and agency funds | \$ 110,059,878 73,662,455 |
|---|--|
| Total | \$ 183,722,333 |
| Notes to financial statements: Deposits Investments Cash on hand | \$ 78,546,249 105,071,185 104,899 |
| Total | \$ 183,722,333 |
| | |

B. Receivables

Receivables as of year-end for the government's individual major funds and non-major, internal service, and fiduciary funds in the aggregate including the applicable allowance for uncollectible accounts, are as follows:

| Receivable | General | Fire Protection District | Sales Tax #5 | Other Governmental |
|---------------------------|---------------|--------------------------|-----------------|-----------------------|
| Taxes | \$ 1,881,311 | \$ 361,077 | \$ - | \$ 75,405 |

| Net receivables | \$ 477,108 | \$ 209,808 | \$ 1,114,630 | \$ 14,814,201 |

C. Notes Receivable

In connection with a 1988 grant received from the State of Georgia Department of Community Affairs, the County has established a revolving loan fund. As of June 30, 2013, the following notes were outstanding.

| Description of note receivable | | Total | | Current | | Long Term | |
|---|----|---------|----|---------|----|-----------|--|
| Interior Products, Inc., payable in 120 monthly installments of \$401, including interest at 3%, beginning May 1, 2010. | \$ | 29,734 | \$ | 3,980 | \$ | 25,754 | |
| Triangle T Corporation, payable in 60 monthly installments of \$1,700, including interest at 10%, beginning August 1, 2013. | \$ | 80,000 | \$ | 5,252 | \$ | 74,748 | |
| Scojet, Inc., payable in 120 monthly installments of \$966, including interest at 3%, beginning August 1, 2013. | \$ | 100,000 | \$ | 3,670 | \$ | 96,330 | |
| Total notes receivable | \$ | 209,734 | \$ | 12,902 | \$ | 196,832 | |

D. Capital Assets

Capital asset activity for the year ended June 30, 2013 was as follows:

| | Primary Government | | | | | | | |
|--|--------------------|---------------|----------------|----------------|--|--|--|--|
| | Beginning | · | | Ending | | | | |
| | Balance | Increases | Decreases | Balance | | | | |
| Governmental Activities: | | | | | | | | |

| Total | (36,829,155) | (2,771,461) | | (39,600,616) | | | | |
| Total Component Unit | \$ 42,031,166 | \$ (665,304) | \$ - | \$ 41,365,862 | | | | |

Depreciation expense was charged to governmental activities as follows:

| General government | \$ | 902,463 |
|----------------------------|----|-----------|
| Judiciary | | 513,365 |
| Public safety | | 2,107,600 |
| Public works | | 2,758,421 |
| Culture and recreation | | 1,080,677 |
| Health | | 67,900 |
| Total depreciation expense | \$ | 7,430,426 |
| Business-type activities: | Φ. | 20.004 |
| Solid Waste Collection | \$ | 29,681 |

E. Interfund Receivables, Payables and Transfers

Interfund receivable and payable balances at June 30, 2013, are as follows:

| | Due From | | |
|--------------------------|--------------|--------------------------|--------------|
| Due To | General | Nonmajor Governmental | Total |
| General | \$ - | \$ 400,088 | \$ 400,088 |
| Fire Protection District | 4,162,045 | - | 4,162,045 |
| Sales Tax 5 | - | 6,717 | 6,717 |
| Nonmajor Governmental | 616,626 | 6,732 | 623,358 |
| Solid Waste Collection | 202,844 | - | 202,844 |
| Solid Waste Disposal | 218 | - | 218 |
| Other Enterprise | 90 | - | 90 |
| Internal Service | 2,479,297 | - | 2,479,297 |
| Fiduciary Fund | 325,850 | - | 325,850 |
| Total | \$ 7,786,970 | \$ 413,537 | \$ 8,200,507 |

These balances represent loans between the borrower fund and the lender fund. These balances resulted from the time lag between the dates that 1) interfund goods and services are provided or reimbursable expenditures occur, 2) transactions are recorded in the accounting system, and 3) payments between funds are made. Interfund receivables and payables are reported in the fund financial statements; however, they are eliminated in the government-wide financial statements if the interfund loan is between governmental funds. The due from nonmajor governmental funds in the sales tax 5 fund is due to an invoice coded to sales tax 4 for a project which is allowable in both funds.

A summary of interfund transfers by fund type is as follows:

| | Transfer From | | | | | | | |
|---|----------------------------------|------------------------|----|--|----|--|--|--|
| Transfer to | Nonmajor General Governmental | | | | | Total | | |
| General Fire Protection District Nonmajor Governmental Solid Waste Collection | \$ | - - 767,094 - | \$ | 2,797,494 704,944 189,924 230,359 | \$ | 2,797,494 704,944 957,018 230,359 | | |
| Total | \$ | 767,094 | \$ | 3,922,721 | \$ | 4,689,815 | | |

Interfund transfers are used to 1) move revenues from the fund that statute or budget requires collecting them to the fund that statute or budget requires to expend them, and 2) use unrestricted revenues collected to finance various programs accounted for in other funds in accordance with budgetary authorizations. The transfers of this type are recorded as other financing uses and other financing sources in the governmental funds financial statements. However, transfers are eliminated in the government-wide financial statements if the interfund transfer is within the governmental fund group.

F. Long-term Liabilities

Governmental Activities

Georgia Environmental Facilities Authority (GEFA) Permanent Loan

On August 9, 2007, the County executed an agreement with the Georgia Environmental Facilities Authority from the Georgia Land Conservation Program on behalf of the St. Simons Island Land Trust. The total loan (LC2007008) amount is \$2,750,000 and has an interest rate of 3.00%. The monthly payment is \$15,254 for a period of twenty years. The balance of the loan as of June 30, 2013, was \$2,177,964. The debt service requirements to maturity are as follows:

| | - | Total Debt | | | | | | | |
|--------------|----|------------|----|-----------|---|----|----------|--|--|
| Year Payable | | Service | | Principal | | | Interest | | |
| | | | | | _ | | | | |
| 2014 | \$ | 183,047 | \$ | 119,580 | | \$ | 63,467 | | |
| 2015 | | 183,047 | | 123,218 | | | 59,829 | | |
| 2016 | | 183,048 | | 126,876 | | | 56,172 | | |
| 2017 | | 183,047 | | 130,911 | | | 52,136 | | |
| 2018 | | 183,047 | | 134,806 | | | 48,241 | | |
| 2019-2023 | | 915,235 | | 738,080 | | | 177,155 | | |
| 2024-2028 | | 862,591 | | 804,493 | _ | | 58,098 | | |
| | \$ | 2,693,062 | \$ | 2,177,964 | | \$ | 515,098 | | |

Contractual Obligation

Brunswick and Glynn County Development Authority Revenue Bonds (Gateway Behavioral Health Services Project), Series 2010

On December 1, 2010, the County issued bonds through the Brunswick and Glynn County Development Authority (Authority) in the amount of \$5,300,000. The bonds bear interest ranging between 3% to 5% with final maturity in 2031. Proceeds of the bond issue were used to finance the cost of the acquisition, construction and equipping of a facility, including land acquisition, for clinical and administrative use by Gateway Behavioral Health Services (Gateway) and pay related costs of issuance. Pursuant to the bond issue, the County entered into an intergovernmental lease agreement with the Authority whereby the County has an unconditional obligation to provide sufficient funds for debt service payments. These payments will be paid from various sources including base rentals in accordance with a rental agreement between the County and Gateway. The rental agreement provided that the County will sublease the project to Gateway and Gateway will make rental payments which are pledged for payment of the bonds. If these payments are insufficient, the County is authorized to exercise its powers of taxation to the extent necessary to pay the amounts required by the contract. A receivable has been recorded on the County's financial statements for the rental payments from Gateway. The balance of the loan as of June 30, 2013, was \$5,115,000.

The debt service requirements to maturity are as follows:

| | - | Total Debt | | | | | | |
|--------------|----|------------|-----------|-----------|----------|-----------|--|--|
| Year Payable | | Service | Principal | | Interest | | | |
| | | | | | | | | |

Revenue Bonds - Defeased

On December 31, 2007, the Glynn County Board of Commissioners ceased all water and sewer operations. These operations were transferred to the Brunswick - Glynn County Joint Water and Sewer Commission "Commission". All assets and liabilities were transferred to the Commission except for cash related to debt service and capital projects in progress. Long term debt including all capital leases, bonds pavable and GEFA loans also remained with the County. As part of the agreement with the County, the Commission agreed to remit all long-term debt service payments to the County as those payments became due. On June 30, 2010, the Commission issued Revenue Bonds, Series 2010C, for the prepayment of certain capital leases and GEFA loans and the defeasance of the outstanding Water and Sewer Revenue Refunding and Improvement Bonds, Series 2003. Funds were placed in an irrevocable trust to provide for all future debt service payments of the defeased bonds. Accordingly, the trust amounts and the defeased bonds are not included on the County's financial statements. The U.S. Treasury securities deposited mature in an adequate amount to service the Bond's bi-annual interest and principal payments through the final payment. The Series 2003 Bonds maturing on April 1, 2014 and thereafter are subject to optional redemption by the County at any time on or after April 1, 2013 at a redemption price of par plus accrued interest to the redemption date. At June 30, 2013, \$7,950,000 of the defeased debt was outstanding.

Business Type Activities

Closure and Postclosure Care Cost for Solid Waste Disposal Enterprise Fund

State and federal laws and regulations require the County to meet certain requirements in order to close its landfill and to perform certain maintenance and monitoring functions at the landfill site for a period of thirty years after closure. Although closure and post-closure care costs will generally be paid near or after the date the landfill stops accepting waste, generally accepted accounting principles require a portion of the estimated closure and post-closure care costs to be reported as an operating expense in each period for which the landfill accepts waste. The \$1,521,743 reported as landfill closure and postclosure care liability at June 30, 2013, represents the cumulative amount reported to date based on the use of 100% of the estimated capacity of both the sanitary and the dry bulk landfills. Amounts for closure and post-closure care costs are based on what it would cost to perform all postclosure care in 2013, adjusted annually for inflation. The County has closed all landfills and no useful life exists. Actual costs may be different due to changes in inflation, technology, regulations, etc.

Changes in Long-term Liabilities

The following is a summary of changes in long-term liabilities for the year ended June 30, 2013:

| | | P | rimary Governmen | nt | |
|---|---|-------------------------------------|---|---|---|
| | Beginning Balance | Additions | Reductions | Ending Balance | Amounts Due Within One Year |
| Governmental Activities: | | | | | |
| Compensated absences Contractual obligations GEFA permanent loan Claims and judgments Deferred Amounts: | \$ 2,579,311 5,300,000 2,294,122 5,960,795 | \$ 1,530,502 - - 5,263,921 | \$ 1,525,754 185,000 116,158 7,133,685 | \$ 2,584,059 5,115,000 2,177,964 4,091,031 | \$ 1,847,603 185,000 119,580 482,239 |
| Premium | 15,752 | | 808 | 14,944 | |
| Total Governmental Activities | \$ 16,149,980 | \$ 6,794,423 | \$ 8,961,405 | \$ 13,982,998 | \$ 2,634,422 |
| | Beginning Balance | Additions | Reductions | Ending Balance | Amounts Due Within One Year |
| Business-Type Activities: | | | | | |
| Closure and postclosure costs | \$ 1,588,264 | \$ - | \$ 66,521 | \$ 1,521,743 | \$ 95,109 |
| Total Business-Type Activities | \$ 1,588,264 | \$ - | \$ 66,521 | \$ 1,521,743 | \$ 95,109 |
| | | Component Unit - | Glynn County Air | port Commission | |
| Capital lease obligations | \$ 1,848 | \$ - | \$ 1,848 | \$ - | \$ - |
| Total long-term debt | \$ 1,848 | \$ - | \$ 1,848 | \$ - | \$ - |

Compensated absences are generally liquidated by the general and special revenue funds.

G. Fund Balances, Net Investment in Capital Assets and Restrictions of Net Position

1. As prescribed by GASB Statement No. 54, governmental funds report fund balance in classifications based primarily on the extent which the County is bound to constraints on the specific purposes for which amounts in the funds can be spent. As of June 30, 2013, fund balances for all the major and nonmajor funds were distributed as follows:

| | | | | ire | | | | Other | | Total |
|----------------------------------|-----|-----------|--------|--------|---------|---------|----|------------|--------------|------------|
| | (| General | | ection | | | Go | vernmental | Governmental | |
| | | Fund | Dis | strict | Sale | s Tax 5 | | Funds | | Funds |
| Fund Balances: | | | | | | | | | | |
| Nonspendable: | | | | | | | | | | |
| Inventories and prepaids | \$ | 172,874 | \$ | - | \$ | - | \$ | - | \$ | 172,874 |
| Restricted for: | | | | | | | | | | |
| County Drug Abuse / Education | | - | | - | | - | | 97,538 | | 97,538 |
| Public Safety | | - | | - | | - | | 653,677 | | 653,677 |
| Commissary | | - | | - | | - | | 187,688 | | 187,688 |
| County Jail | | - | | - | | - | | 302,888 | | 302,888 |
| Juvenile Services | | - | | - | | - | | 23,808 | | 23,808 |
| Public Safety grants | | - | | - | | - | | 137,462 | | 137,462 |
| Alternate dispute | | - | | - | | - | | 304,870 | | 304,870 |
| Construction and capital outlay | | - | | - | 20,8 | 373,124 | | 8,116,810 | | 28,989,934 |
| Committed to: | | | | | | | | | | |
| Public works construction | | | | | | | | | | |
| and improvements | | 1,081,129 | | - | | - | | - | | 1,081,129 |
| Financial policy reserve level | 2 | 5,364,874 | | - | | - | | - | | 25,364,874 |
| Assigned to: | | | | | | | | | | |
| Recreation / tourist activities | | - | | - | | - | | 374,617 | | 374,617 |
| Drug court operations | | - | | - | | - | | 567,734 | | 567,734 |
| Public Safety | | _ | 4,1 | 43,932 | | - | | 246,321 | | 4,390,253 |
| Construction and capital outlay | | _ | | ´- | | - | | 3,076,748 | | 3,076,748 |
| Subsequent year's budget deficit | | 885,668 | | | | | | | | 885,668 |
| Unassigned: | | 1,899,497 | | - | | - | | - | | 31,899,497 |
| Total Fund Balances | \$5 | 9,404,042 | \$ 4,1 | 43,932 | \$ 20,8 | 373,124 | \$ | 14,090,161 | \$ | 98,511,259 |

In accordance with adopted fund balance policy, The Board of Commissioners has committed fund balance to cover six months of expenditures in the general fund. The amount of committed fund balance is modified each year based upon the adopted budget for this fund. During the budget process, the Board may also redirect these funds for expenditure.

2. Net investment in capital assets – The amounts are calculated as follows:

| | Governmental Activities | Business-Type Activities | |
|---|----------------------------|-----------------------------|--------|
| Net Capital Assets | \$ 263,808,449 | \$ | 65,602 |
| Capital Improvements reported in accounts payable | (3,264,684) | | - |
| Invested in capital assets, net of related debt | \$ 260,543,765 | \$ | 65,602 |

The debt of the County was not used to purchase capital assets for the County.

Restrictions of net position are used to indicate a portion of net position that have constraints placed on the use either by external groups or law. The County uses the following restrictions of net position:

Governmental Activities

Restricted for capital projects – This restriction represents amounts to be used for capital project expenditures as legally restricted through public referendum or contractual obligation.

Restricted for other purposes – This restriction represents \$1,707,931 in the nonmajor special revenue funds and \$1,081,129 for public works projects and improvements.

IV. Other Information

A. Retirement Plan

Plan Description

The Glynn County Pension Plan (the "Plan") is a single employer defined benefit pension plan administered by Marshwinds Advisory Company and Synovus Trust Company, jointly. The plan provides retirement and death benefits to plan members and beneficiaries. Benefit provisions and contributions are established and may be amended by the Glynn County Board of Commissioners. The accounting and financial reporting functions are done by the County finance department. The County's general fund bears most of the Plan's administrative costs. The plan's audited financial statement is included in the County's Comprehensive Annual Financial Report as a Pension Trust Fund and does not issue a stand-alone financial report.

At January 1, 2013, the Retirement Plan of Glynn County membership consisted of:

| | Public Safety Employees | General Employees | Total |
|---|----------------------------|----------------------|-------|
| Retirees and beneficiaries receiving benefits | 118 | 240 | 358 |
| Terminated plan members entitled to but not yet receiving benefits | 141 | 154 | 295 |
| Active plan members | 345 | 304 | 649 |
| Total membership | 604 | 698 | 1,302 |

Summary of Significant Accounting Policies

The pension plan's financial statements are reported as the County Employees Pension Trust Fund using the trust's pension plan fiscal year, and are prepared using the accrual basis of accounting. No plan member contributions are required. Employer contributions to the Plan are recognized when due and the County has made a formal commitment to provide the contributions. Benefits and refunds are recognized when due and payable in accordance with the terms of the Plan. Investments are reported at fair value as described at note I.E.1.

Funding Policy

The contribution requirements of the County are established and may be amended by the Glynn County Board of Commissioners. The County is required to contribute at an actuarially determined rate; the current rate is 9.58% of annual covered payroll.

Annual Pension Cost and Net Pension Obligation

The County's annual pension cost and net pension obligation to the plan for the current year were as follows:

| Annual pension cost / required contribution | \$ 2,886,689 |
|---|--------------|
| Contribution made | (2,886,689) |
| Net pension obligation, beginning of year | |
| Net pension obligation, end of year | \$ - |

GLYNN COUNTY, GEORGIA Notes to Financial Statements

The annual required contribution for the current year was determined as part of the January 1, 2013 actuarial valuation using the entry age actuarial cost method. The actuarial assumptions include (a) 8.0% investment rate of return (net of investment expenses) and (b) projected salary increases of 5.5% per year, including an inflation rate of 4.5%. The assumptions did not include post retirement benefit increases. The actuarial value of assets was determined using techniques that smooth the effects of short-term volatility in the market value of investments over a five year period. The unfunded actuarial accrued liability is being amortized as a level percentage of projected payroll on an open basis. The remaining amortization period at January 1, 2013 was 30 years.

Schedule of Employer Contributions

| Fiscal Year Ending | Annual Pension Cost (APC) | Percentage of APC Contributed | | Net Pension Obligation |
|--------------------------|-------------------------------------|-------------------------------------|---|-------------------------------|
| 6/30/2011 6/30/2012 | \$ 2,719,470 2,835,336 | 100 100 | % | \$ - |
| 6/30/2012 | 2,886,689 | 100 | | _ |

Funded Status and Funding Progress

Schedule of Funding Progress

| Actuarial Valuation Date | Actuarial Value of Assets | Actuarial Accrued Liability | Unfunded Actuarial Liability | Funded Ratio | Annual Covered Payroll | Ratio of the Unfunded Actuarial Liability to Annual Covered Payroll |
|-----------------------------|---------------------------------|-----------------------------------|------------------------------------|-----------------|------------------------------|---|
| January 1, 2013 | \$ 63,850,005 | \$ 84,219,736 | \$ 20,369,731 | 75.8% | \$28,703,222 | 71.0% |

The schedule of funding progress, presented as required supplementary information following the notes to the financial statements, presents information about whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liabilities for benefits.

B. Post-employment Benefits Other Than Pensions (OPEB)

Plan Description

The County maintains a single employer defined benefit OPEB plan (the Glynn County Employee Benefit Plan) to provide medical benefits to its retirees. Membership in the Plan by the County retirees is voluntary. The plan covers both general and uniform employees. As of January 1, 2012, employee membership data related to the OPEB plan was as follows:

| Retirees and beneficiaries currently receiving benefifts Active plan participants | 20 650 |
|---|-----------|
| Total | 670 |

GLYNN COUNTY, GEORGIA Notes to Financial Statements

The plan provides members, upon eligible retirement, with healthcare insurance benefits. The benefits provided are not guaranteed and are subject to change at any time. In addition, the benefit provisions are subject to annual appropriation of funds by the County's Board of Commissioners. The Plan does not provide for automatic or ad hoc postretirement benefit increases; however, the benefit provisions provided by the Plan may be amended, established or terminated at any time by a vote of the Board of Commissioners. The Plan document specifies the types and levels of Plan benefits as well as member contribution requirements. The County provides administration of the Plan, including setting funding policies, and reports the Plan as part of its County Health Insurance Internal Service Fund. The Plan does not issue a stand-alone financial report.

Summary of Significant Accounting Policies

The accrual basis of accounting is used with respect to the recognition in the financial statements of contributions, benefits paid, and refunds paid. Plan investments, if any, are reported at their fair value at the reporting date. The fair value of an investment is the amount that the Plan could reasonably expect to receive for it in a current sale between a willing buyer and a willing seller and for financial reporting purposes is measured by the market price unless such prices are not available, in which case, fair value is estimated. As of June 30, 2013, the Plan reported no assets.

Contributions and Reserves

As administrator of the plan, the Glynn County Board of Commissioners are the authority under which the obligations of the plan members to contribute to the plan are established and are amended. The funding of the plan is derived from member contributions. Member contributions are set at a level to achieve 100 percent of the expected funding target for pre-Medicare retirees. Coverage under the plan ceases when the retiree attains age 65. The County is required to contribute amounts needed to cover any deficiency. The funding target for a given year is set at a level sufficient to cover expected medical and prescription claims, insurance premiums and administration costs.

The plan is funded on a pay-as-you-go basis by the County. Required contribution rates of plan members for the valuation date January 1, 2012 were set as follows:

| Class of Retiree | Monthly Contribution Per Retiree | | |
|--|----------------------------------|-------------------|--|
| Retiree Only Retiree + Spouse Retiree + Family | \$ | 668 765 798 | |

The Glynn County Board of Commissioners approved a change to the monthly contribution per retiree on August 16, 2012. The new rates are retiree only \$76, retiree and spouse \$173 and retiree and family \$206.

The Plan has entered into no long-term contracts for contributions to the Plan with either employers or participants and, therefore, no amounts of contractually required contributions were outstanding at the reporting date.

GLYNN COUNTY, GEORGIA Notes to Financial Statements

OPEB Cost

For the year ended June 30, 2013, the County's annual OPEB cost was projected to be \$139,008, which was made up of the annual required contribution, interest on net OPEB obligation and adjustment to annual required contribution. The dollar amount contributed by the County toward the OPEB cost was \$139,008. As of June 30, 2013, the County had a net OPEB obligation (asset) of \$95,691, the components of which are disclosed as the following:

| Annual required contribtuion | \$139,008 |
|---|---------------------|
| Annual OPEB cost Contribtuions made | 139,008 (58,778) |
| Increase in net OPEB obligation (asset) Net OPEB obligation (asset) - beginning of year | 80,230 15,461 |
| Net OPEB obligation (asset) - end of year | \$ 95,691 |

The County's annual OPEB cost, the percentage of annual OPEB cost contributed to the plan, and the net OPEB obligation for fiscal year 2013 was as follows:

| Plan Year Ended | Annual OPEB Cost | Percentage of Annual OPEB Cost Contributed | Net OPEB Obligation (Asset) | | |
|--------------------|---------------------|--|-----------------------------|--|--|
| 2011 | \$ 120,836 | 116% | \$ 43,646 | | |
| 2012 | 120,210 | 123% | 15,461 | | |
| 2013 | 139,008 | 42% | 95,691 | | |

Funded Status and Funding Progress

As of the County's most recent OPEB actuarial valuation, dated January 1, 2012, the actuarial accrued liability for benefits was \$1,600,812, all of which was unfunded. As of the valuation date, the Plan had no assets; therefore, the actuarial value of assets was zero. Other information about the funded status of the Plan is as follows:

| Actuarial Valuation Date | Actuarial Value of Assets | Actuarial Accrued Liability | Unfunded Actuarial Liability | Funded Ratio | Annual Covered Payroll | Ratio of the Unfunded Actuarial Liability to Annual Covered Payroll |
|-----------------------------|---------------------------------|-----------------------------------|------------------------------------|-----------------|------------------------------|---|
| January 1, 2012 | \$ - | \$ 1,600,812 | \$1,600,812 | 0% | \$ 29,472,565 | 5.43% |

The projection of future benefit payments for an ongoing plan involves estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality, and the healthcare cost trend. Amounts determined regarding the funded status of the plan and the annual required contributions of the employer are subject to continual revision as actual results are compared with past expectations

GLYNN COUNTY, GEORGIA Notes to Financial Statements

and new estimates are made about the future. The schedule of funding progress, presented as required supplementary information following the notes to the financial statements, presents information about whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liabilities for benefits.

Methods and Assumptions

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employer and plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs between the employer and plan members to that point. The methods and assumptions used include techniques that are designed to reduce the effects of short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations.

For the actuarial valuation date January 1, 2012, the actuarial cost method used in determining the County's annual required contribution (ARC) was the projected unit credit method. In addition, the asset valuation method used was the market value. Other significant assumptions used to determine the ARC were as follows:

The inflation rate was assumed to be 4.5 percent annually.

The investment rate of return was assumed to be 3.5 percent annually.

The medical cost trend used was 9.5 percent graded to 5 percent.

The amortization method used was level percent of payroll and the amortization period for the most recent actuarial valuation was 30 years and the period is open.

Multi-year trend information shown in the Required Supplementary Information section provides information about whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liability for benefits.

C. Risk Management

The County is exposed to various risks of loss related to torts; theft of, damage to, or destruction of assets; and errors or omissions; injuries to employees; natural disasters; and losses resulting from providing accident and health benefits to employees, retirees, and their dependents. The County established risk management funds (County Insurance Fund and Employee Benefit Fund, both internal service funds) prior to July 1, 1993. Under these programs, the risk management funds provide coverage for up to a maximum of \$75,000 for employee accident or health claims; \$300,000 for each workers compensation claim and \$100,000 for torts; theft of, damage to and destruction of assets, errors and omissions; and natural disasters. The County purchases commercial insurance for claims in excess of coverage provided by the Funds and for all other risks of loss.

All funds of the County participate in the program and make payments to the risk management funds based on the individual fund's risk exposure, i.e., payroll costs, budget amount, capital asset values, etc.

The claims liability of \$2,141,354 and \$539,677 as of June 30, 2013 of the Employee Benefit Plan Fund and County Insurance Fund, respectively, are based on the requirements of Governmental Accounting Standards Board Statement Number 10, which requires that a liability for claims be reported if information prior to the issuance of the financial statements indicates that it is probably that a liability has been incurred at the date of the financial statements and the amount of the loss can be reasonable estimated. Because actual claims liabilities depend upon such complex factors as inflation, changes in legal doctrines, and damage awards, the process used in computing claims liability does not necessarily result in an exact amount. Claims liability is reevaluated periodically to take into consideration recently settled claims, the frequency of claims, and other economic and social factors. The estimate of the claims liability also includes amounts for incremental claim adjustment expenses

GLYNN COUNTY, GEORGIA Notes to Financial Statements

related to specific claims and other claim adjustment expenses regardless of whether allocated to specific claims.

Incurred-But-Not-Reported (IBNR) claims have been accrued as a claims liability in the County Insurance Fund \$539,677 (\$53,968 estimated to be due within one year) and in the Employee Benefit Plan Fund \$2,141,354 (\$428,271 estimated to be due within one year) based primarily upon each fund's third party administrator's claims projections. These amounts are included in the total claims liability balances in the preceding paragraph.

The County pays unemployment claims to the state department of labor on a reimbursement basis. Liabilities for such claims are immaterial and are not accrued.

There were no significant reductions of insurance coverage compared to the prior year. Settled claims have not exceeded the commercial coverage in any of the past three fiscal years.

Changes in the respective Fund's claims liabilities amount in fiscal years 2011 through 2013 were:

| Fiscal Year 2011 | Beginning | Claims Estimates | Claims Paid | Ending |
|---|---------------------------|---------------------------|-------------------------|---------------------------|
| County Insurance Fund Employee Benefit Plan Fund | \$ 671,382 2,490,582 | \$ 1,127,079 8,227,155 | \$ 836,450 7,300,082 | \$ 962,011 3,417,655 |
| Total | \$ 3,161,964 | \$ 9,354,234 | \$ 8,136,532 | \$ 4,379,666 |
| Fiscal Year 2012 | Beginning | Claims Estimates | Claims Paid | Ending |
| County Insurance Fund Employee Benefit Plan Fund | \$ 962,011 3,417,655 | \$ 409,178 6,818,646 | \$ 269,761 6,571,934 | \$ 1,101,428 3,664,367 |
| Total | \$ 4,379,666 | \$ 7,227,824 | \$ 6,841,695 | \$ 4,765,795 |
| Fiscal Year 2013 | Beginning | Claims Estimates | Claims Paid | Ending |
| County Insurance Fund Employee Benefit Plan Fund | \$ 1,101,428 3,664,367 | \$ - 5,048,921 | \$ 561,751 6,571,934 | \$ 539,677 2,141,354 |
| Total | \$ 4,765,795 | \$ 5,048,921 | \$ 7,133,685 | \$ 2,681,031 |

D. Commitments and Contingencies

The County is a defendant in various lawsuits. Although the outcome of these lawsuits is not presently determinable, in the opinion of the County's attorney, the resolution of these matters will not have a material adverse effect on the financial condition of the County.

Grants – Amounts received or receivable from grantor agencies are subject to audit and adjustment by grantor agencies, principally the Federal government. Any disallowed claims, including amounts already collected, may constitute a liability of the applicable funds. The amount, if any, of expenditures, which may be disallowed by the grantor, cannot be determined at this time although the government expects such amounts, if any, to be immaterial.

GLYNN COUNTY, GEORGIA Notes to Financial Statements

Construction and Other Commitments – In addition to the liabilities enumerated in the balance sheet at June 30, 2013, the County has contractual commitments on uncompleted construction contracts and other purchase orders. At fiscal year end, the County has encumbered amounts that will be honored in the subsequent fiscal year for the general fund in the amount of \$4,154,763, fire protection district in the amount of \$16,628, special purpose sales tax 5 fund in the amount of \$8,935,452 and other funds in the amount of \$3,603,573.

E. Deferred Compensation Plan

The County has implemented Governmental Accounting Standards Board Statement No. 32, Accounting and Financial Reporting for Internal Revenue Code Section 457 Deferred Compensation Plans. All assets and income of the County's Deferred Compensation Plan are being held in a trust administered by third parties for the exclusive benefit of the participants and their beneficiaries. Therefore, the Deferred Compensation Plan is not presented as part of the County's financial statements.

F. Subsequent Events

On October 7, 2013, the County paid in full the GEFA Loan in the amount of \$2,148,595.

G. Component Unit As Lessor

The Glynn County Airport Commission is lessor of various land and buildings. The original leases have terms ranging from one to thirty-five years. Each is accounted for as an operating lease. The minimum future rentals for non-cancelable leases for the next five years and subsequently as of June 30, 2012, are as follows:

| Year Ending June 30, | Amount |
|----------------------|------------------|
| 2014 | \$ 1,712,781 |
| 2015 | 1,694,605 |
| 2016 | 1,771,343 |
| 2017 | 1,741,490 |
| 2018 | 1,710,279 |
| Subsequent years | 23,177,206 |
| | \$ 31,807,704 |

A Golden Past. A Shining Future.

GLYNN COUNTY, GEORGIA NOTES TO REQUIRED SUPPLEMENTARY INFORMATION

A. Budgets and Budgetary Accounting

State law requires that the County adopt by ordinances or resolutions an annual balanced budget for its upcoming fiscal year (June 30). A budget is balanced when the sum of estimated revenues and appropriated fund balance is equal to appropriations. The legal level of budgetary control over expenditures is exercised by the County at the department level for its general and special revenue funds. Appropriations lapse at year-end.

The County follows these procedures in establishing the budgetary data reflected in the financial statements.

Prior to year-end, the County Administrator submits to the Board of Commissioners a proposed operating budget for the fiscal year commencing the following July 1. The operating budget includes proposed expenditures and the means of financing them.

- 1. Public hearings are conducted at the County Courthouse to obtain taxpayer comments.
- 2. Prior to July 1, the budget is legally enacted through approval by the Board of Commissioners.
- 3. Budgets for the general fund, all special revenue funds and debt service fund are adopted on a basis consistent with generally accepted accounting principles (GAAP). Project length budgets are adopted for the capital projects funds.

The Board of Commissioners has the authority to amend its budget as follows:

Any increase in appropriation in any fund for a department, whether accomplished through a change in anticipated revenues in any fund or through a transfer of appropriations among departments, shall require the approval of the Board of Commissioners. Transfers of appropriations in any fund among the various accounts within a department shall require only the approval of the budget officer.

Supplemental and decreases in budget appropriations were properly approved by the Board of Commissioners. For the year ended June 30, 2013, the following supplemental appropriations were approved:

| Fund Type | Original Appropriations | | Supplemental Appropriations | | lemental creases | Final Appropriations | | |
|--------------------------|----------------------------|------------|--------------------------------|----|---------------------|-------------------------|------------|--|
| General | \$ | 49,753,128 | \$ 12,665,895 | \$ | - | \$ | 62,419,023 | |
| Fire Protection District | Ψ | 6,474,253 | 912,240 | Ψ | | Ψ | 7,386,493 | |
| | \$ | 56,227,381 | \$ 13,578,135 | \$ | - | \$ | 69,805,516 | |

Nonmajor Governmental Funds

Special Revenue Funds

Special Revenue Funds are used to account for the proceeds of specific revenue sources that are restricted to expenditures for specified purposes.

The **Accommodation Excise Tax Fund** accounts for the Hotel/Motel accommodation excise tax receipts and distributions to tourism promoting organizations as required by agreements with these organizations.

The **County Drug Abuse/Education Fund** accounts for the fees added to each fine issued by the Courts and expenditure of these funds as provided by State law.

The **Drug Court Grant Fund** accounts for grants which provide funding for the Drug Court and local county expenditures incurred for the operation of the local Drug Court.

The **Emergency Telephone System Fund** accounts for operations of the County's E-911 program. Financing is provided by telephone service charges, contributions from the City of Brunswick and transfers from the County's General Fund.

The **Insurance Premium Tax Fund** accounts for the disbursement of the insurance premium taxes as provided by State law.

The **Sheriff Commissary Fund** accounts for operations of the Commissary. The Commissary purchases items for resale to inmates of the County's Detention Center.

The **County Jail Fund** accounts for the fees added to each fine issued by the Courts and expenditures of these funds for operations of the Jail as provided by State law.

The **Juvenile Services Fund** accounts for fees paid by juveniles who receive supervision in Juvenile Court. The supervision fees are used to fund community based services.

The **Law Enforcement Block Grant Fund** accounts for the Department of Justice grant and local county match to purchase capital items for the Police Department.

The **Police Seizure Fund** accounts for the receipt of condemned monies awarded to the County by court order and expenditures of these funds by the County Police Department.

The **Sea Island Special Police District Fund** accounts for operations of the Sea Island Police. Financing is provided by property tax assessments and transfers from the County's Insurance Premium Tax Fund.

The **Sheriff Drug Seizure Fund** accounts for condemned monies awarded to the County by court order.

The **Alternate Dispute Fund** accounts for a court annexed mediation program which was implemented in each county of the judicial circuit as mandated by the Chief Superior Court Judge of the circuit. Court cost in the amount of \$7.50 for each case filed in Superior, State, Magistrate, and Probate Courts is remitted to the County for this program.

Nonmajor Governmental Funds (Continued)

Capital Projects Funds

The Capital Projects funds are used to account for financial resources to be used for the acquisition or construction of major capital facilities.

The **Sales Tax Construction Fund #3** accounts for expenditures relating to renovation of various County buildings, construction of roads, water and sewer projects, recreation projects, and public safety projects. Funding is provided by a 1% special purpose sales tax.

The **Sales Tax Construction Fund #4** accounts for expenditures relating to renovation of various County buildings, construction of roads, water and sewer projects, recreation projects, and public safety projects. Funding is provided by a 1% special purpose sales tax.

The **Capital Projects Fund** accounts for major expenditures relating to buildings, roads and equipment. Funding is provided by property taxes and other revenues.

The **TEA Projects Fund** accounts for projects that are funded by the Transportation Enhancement Activity Grants and local matches.

A Golden Past. A Shining Future.

Internal Services Funds

Operations of the Internal Service Funds are designed to be self-supporting.

The **Employee Benefit Plan** accounts for the County's insurance claims related to health, life, workers compensation and unemployment. The fund is financed by charges to other County funds and agencies, employees, former employees under COBRA arrangements, and retired employees who have elected to retain health insurance coverage.

The **County Insurance Fund** accounts for the County's insurance claims related to automobile and property damage, general liability, personal injury and errors and omissions. The fund is financed by charges to other County funds and agencies.

The **Administrative Service Fund** accounts for expenses of the Administration, Finance, Information Technology and Human Resources departments and the costs of the annual audit performed by the independent CPA. The fund is financed by charges to other County funds and agencies.

Note 1 - Basis of Presentation

The accompanying schedule of expenditures of federal awards (Schedule) includes the federal grant activity of Glynn County, Georgia (County) under programs of the federal government for the year ended June 30, 2013. The information in this Schedule is presented in accordance with the requirements of OMB Circular A-133, Audits of States, Local Governments, and Non-Profit Organizations. Because the Schedule presents only a selected portion of the operations of the County, it is not intended to and does not present the financial position or changes in net position of the County.

Note 2 – Summary of Significant Accounting Policies

Expenditures reported on the Schedule are reported on the modified accrual basis of accounting.

Statistical Section

This part of Glynn County's comprehensive annual financial report presents detailed information as a context for understanding what the information in the financial statements, note disclosures, and required supplementary information says about the county's overall financial health.

| <u>Contents</u> | <u>Page</u> |
|---|-------------|
| Financial Trends These schedules contain information to help the reader understand how the County's financial performance and well-being have changed over time. | G-1 |
| Revenue Capacity These schedules contain information to help the reader assess the factors affecting the County's ability to generate its property and sales taxes. | G-7 |
| These schedules present information to help the reader assess the affordability of the County's current levels of outstanding debt and the county's ability to issue additional debt in the future. | G-18 |
| Demographic and Economic Information These schedules offer demographic and economic indicators to help understand the environment within which the County's financial activities take place and to help make comparisons over time and with other governments. | G-21 |
| Operating Information These schedules contain information about the County's operations and resources to help the reader understand how the County's financial information relates to the services the County provides and the activities it performs. | G-23 |

Sources: Unless otherwise noted, the information in these schedules is derived from the comprehensive annual financial reports for the relevant year. The County implemented Statement 34 in 2003; schedules presenting government-wide information include beginning in that year.

| Total net debt applicable to the limit as a percentage of debt limit | 0.00% | 0.00% | 0.00% | 0.00% |

The Constitutional debt limitation of 10 percent of total assessed property values applies to all general obligation bonds authorized. Additional general obligation bonds may be authorized to be issued if so approved by a majority of those voting in an election held for that purpose. Glynn County has no general obligation bonds authorized but unissued.

INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

To the Chairman and Members of the Glynn County Board of Commissioners Brunswick, Georgia

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the Glynn County Board of Commissioners (County), as of and for the year ended June 30, 2013, and the related notes to the financial statements, which collectively comprise the County's basic financial statements, and have issued our report thereon dated December 13, 2013. We did not audit the financial statements of the Glynn County Health Department or the Glynn County Airport Commission, discretely presented component units of the County. Those financial statements were audited by other auditors whose reports thereon were furnished to us, and our opinion, insofar as it relates to the amounts included for these component units, is based solely on the report of other auditors.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the County's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the County's internal control. Accordingly, we do not express an opinion on the effectiveness of the County's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that were not identified. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified. We did identify certain deficiencies in internal control, described in the accompanying schedule of findings and questioned costs as 2013-01 and 2013-02 that we consider to be significant deficiencies.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the County's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards* and which are described in the accompanying schedule of findings and questioned costs as item 2013-03.

We noted certain matters that we reported to management of the County in a separate letter dated December 13, 2013.

The County's responses to the findings identified in our audit are described in the accompanying schedule of findings and questioned costs. We did not audit the County's response and, accordingly, we express no opinion on it.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the County's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the County's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE FOR EACH MAJOR PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY OMB CIRCULAR A-133

To the Chairman and Members of the Glynn County Board of Commissioners Brunswick, Georgia

Report on Compliance for Each Major Federal Program

We have audited the Glynn County Board of Commissioners (County's) compliance with the types of compliance requirements described in the *OMB Circular A-133 Compliance Supplement* that could have a direct and material effect on each of the County's major federal programs for the year ended June 30, 2013. The County's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

The County's basic financial statements include the operations of the Glynn County Airport Commission (Commission) and Glynn County Health Department, which received \$1,735,653 and \$7,464,445 respectively in federal awards which is not included in the schedule during the year ended June 30, 2013. Our audit, described below, did not include the operations of these entities because other auditors were engaged to perform and audit them in accordance with OMB Circular A-133.

Management's Responsibility

Management is responsible for compliance with the requirements of laws, regulations, contracts, and grants applicable to its federal programs.

Auditor's Responsibility

Our responsibility is to express an opinion on compliance for each of the County's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the County's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of the County's compliance.

Opinion on Each Major Federal Program

In our opinion, the County complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2013.

Report on Internal Control Over Compliance

Management of the County is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the County's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with OMB Circular A-133, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the County's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of OMB Circular A-133. Accordingly, this report is not suitable for any other purpose.

SCHEDULE OF FINDINGS AND QUESTIONED COSTS AND STATUS OF PRIOR YEAR AUDIT FINDINGS FOR THE YEAR ENDED JUNE 30, 2013

B. Findings - Financial Statement Audit

Finding 2013-01 Supervision, Review, and Monitoring (Repeat Finding)

Condition: The Clerk of Magistrate Court and Superior Court, including Child Support Receiver, manages all funds and bank accounts for the respective Courts. We noted in some instances that the monthly settlements exceeded the cash balance at month end. Also, the office does not have a documented reconciliation process that would detect when settlements exceed the cash balance.

Criteria: Management is required to develop and institute cash management policies and procedures. These policies must be incorporated within the court's internal control manual. The cash management process must also be monitored by management and revised as necessary.

Cause: Variances are not being properly monitored and investigated by the Court's management.

Effect: The Clerk's office is exposed to an increased risk of insufficient funds to cover settlements. Also, without sound internal control procedures, the Clerk's office is at risk for irregularities and material errors.

Recommendation: The Clerk should investigate variances and develop policies and procedures to ensure that differences noted are corrected in a timely manner.

Response/ Corrective Action: Management concurs with this finding. The Clerk of Magistrate and Superior Courts will develop policies and procedures to ensure that differences noted are corrected in a timely manner.

Finding 2013-02

Proper Controls Over Escrow Funds

(Repeat Finding)

Condition: The Clerk of Magistrate and Superior Courts does not maintain an accurate listing of defendant cases that have deposited funds into the registry (escrow) accounts.

Criteria: The Clerk of Court is required by state statute to properly account for all funds collected, remitted, and held by Superior and Magistrate Court. Properly accounting for escrow funds includes maintaining an accurate case registry that reconciles to cash funds on hand by the Court.

Cause: The Court registry contains cases that have been previously closed and/ or settled via property/ surety bonds. Additionally, the Court has not implemented policies and procedures to ensure that escrow funds are properly accounted for with the Court's case management software.

Effect: Ineffective controls over escrow funds may lead to cases inaccurately entered into the Court's registry or cases inaccurately closed within the Clerk of Court's records. The Court is exposed to an increased risk of settling incorrect amounts to defendants and the Clerk's office is at risk for irregularities and material errors.

Recommendation: The Clerk of Superior and Magistrate Court develop and institute internal control policies to ensure that all cases listed within the escrow registry are routinely reconciled against escrow funds maintained by the Court.

Response / Correct Action: Management concurs with this finding. The Clerk of Magistrate and Superior Courts continues to make changes in her office. Worksheets have been provided to facilitate the assurance that all escrow accounts are reconciled monthly.

SCHEDULE OF FINDINGS AND QUESTIONED COSTS AND STATUS OF PRIOR YEAR AUDIT FINDINGS FOR THE YEAR ENDED JUNE 30, 2013

Finding 2013-03

Distribution of Real Estate Transfer and Intangible Recording Taxes

Condition: The distribution of the real estate transfer and intangible recording taxes is based on the millage rates approved for the district where the property is located. The incorrect millage rates for FY 2013 were used in calculating the distribution of the taxes to the various agencies.

Criteria: State code OCGA 48-6-72(d) provides guidance on the proper distribution of the taxes to the various taxing agencies.

Cause: The use of the incorrect millage rates in calculating the distribution.

Effect: Incorrect settlements to the State, County and Municipal agencies.

Recommendation: The Clerk should determine the appropriate distribution percentages and apply to the monthly distribution calculations.

Response/ Correct Action: Management concurs with this finding. The Clerk's office will verify the approved millage rates annually with the Finance Department.

C. Findings and Questioned Costs - Major Federal Award Programs Audit

None reported.

II. STATUS OF PRIOR YEAR AUDIT FINDINGS

None reported.
