Lower ISO Rating in Effect

GLYNN COUNTY, Ga. – The Glynn County Fire Department would like to remind the public that the new, lower ISO (Insurance Service Office) rating for Glynn County of 3 is in effect as of September 1, 2015. In June, the Board of Commissioner announced that a survey conducted by ISO had resulted in an improved ISO rating from a 4 to a 3.

Through the Public Protection Classification (PPC) program, ISO evaluates municipal fire-protection efforts in communities throughout the United States. The PPC program plays an important role in the underwriting process at insurance companies. Most insurance companies use PPC information as part of their decision-making process when determining prices for personal or commercial property insurance. As such, properties located in communities with a better ISO rating generally receive lower insurance rates.
