Accidental Tsunami Notification

GLYNN COUNTY, Ga.- While Accuweather was conducting a drill with their app this morning they mistakenly sent out a tsunami warning for Coastal Georgia. There is no tsunami warning at this time. While the source is cited as the National Weather Service Office in Jacksonville, this was simply a drill and was not meant to be sent to the public. There is no reason to be alarmed about a tsunami.

For more information or updates contact Glynn County Emergency Management Agency
Director Jay Wiggins at 912-554-7735
