RE: 2018 LMIG / SPLOST 2016 Resurfacing

Beginning at approximately 8:00 AM on Monday, April 23, 2018, or possibly as late as Wednesday, April 25, 2018 and continuing until finished, resurfacing work will take place in the Sandcastle neighborhood on St. Simons Island. This work is part of the 35 streets included in the 2018 Local Maintenance and Improvement Grant (LMIG) Resurfacing Project. Flagmen will be present at times when one-lane traffic will be required to accomplish this work. Access will be restricted in this area during this work. We are advising motorists, cyclist and pedestrians to avoid this location if possible and to expect delays and to use caution if travel is required near this area. Please turn off your irrigation system if it impacts the street and avoid parking on the Right-of-Way until the work is finished. We expect this work to be completed by 6:00 PM each day.

Work crews will also begin work on Bruce Drive and Ocean Road during this time frame. Once completed, several additional roads on Saint Simons Island will be resurfaced before moving over to the mainland to repair and resurface the remaining roads in this contract.

For media inquiries, please contact David DeLoach at (912)-554-7469 or the Glynn County Public Works Department at (912)-554-7746.
