Hurricane/Tropical Storm Michael Post Storm Update

GLYNN COUNTY, Ga.- Hurricane/Tropical Storm Michael has passed our area. This was a historic and catastrophic storm for the Florida Panhandle and much of Georgia. Due to the speed of the storm and the westward track, Glynn County was able to avoid many of the potential disasters.

Winds of 50 mph were measured in the area, so please be aware of downed power lines and report them to Georgia Power at <http://outagemap.georgiapower.com/external/default.html>. Report fallen trees, dangerous potential falling trees, or intersections without power to 554-3645.

Trash service is expected to continue on schedule. Place your cans on the street at usual.

For yard debris pickup, call the Glynn County Customer Service Department at 554-7111 or if you live in the City of Brunswick call Republic Services at 267-6400. This weather event was not a federally declared disaster for Glynn County, so there will be no countywide debris pickup.

No streets are currently closed. The F.J. Torras Causeway did not have significant flooding to cause lane closures. The Sidney Lanier Bridge will remain closed until the Georgia Department of Transportation (GDOT) has inspected and cleared it for use. Tide levels are expected to return to normal by the end of the day.

If you must drive, remember, do not drive through water and intersections with power outages should be treated as four way stops.

Glynn County Government, The City of Brunswick, The Jekyll Island Authority are expected to resume normal operations as of 12:00 p.m. on October 11, 2018. Glynn County Schools and The

College of Coastal Georgia are expected to open on Friday, October 12, 2018.

Glynn County would like to thank our partner agencies and utility representatives for weathering the storm with us. Thanks to Glynn County citizens for adhering to the advice of local authorities. Your assistance helped to minimize potential injury and loss of life.

We will continue to monitor conditions and provide updates as needed. Updates will be available at www.glynncounty.org/michael and Glynn County Board of Commissioners Facebook. We advise the public to use the latest forecast models from the National Weather Service Jacksonville.
