Hurricane Isaias Update #1

GLYNN COUNTY, Ga.- Glynn County and partners are monitoring the track of Hurricane Isaias as it nears the eastern coast of the United States. At this time, potential impacts for Glynn County could be seen as early as the morning of Sunday, August 2, 2020. If the track continues as is we could see rain, coastal flooding, high tides, and high winds as the storm passes off the coast.

Use this as a reminder to continue to prepare for hurricane season.

- Finalize your disaster kit.
- Ensure you have at least 3 days of water and non-perishable foods.
- Ensure you have extra medications and medical supplies.
- If your medication requires refrigeration, ensure you have a plan in place should you lose power for an extended period of time.
- Make sure all information in your family communication plan is up to date and everyone knows the plan.
- Make provisions for your pet. Make sure they are inside, out of the elements, and have plenty of food and water.
- Flooding is possible in low lying areas; Turn Around Don't Drown!

There are no closures planned at this time. We will continue to monitor conditions and provide updates as needed. Updates will be available at www.glynncounty.org. We advise the public to use the latest forecast models from the National Weather Service Jacksonville.
