Commissioners Reach New Agreement with TSW for Update of Zoning Ordinances

GLYNN COUNTY, GA – On Friday, July 22, 2022, Glynn County Board of Commissioners Chairman David O’Quinn, County Manager Bill Fallon, and County Attorney Aaron Mumford met with the principals of TSW to discuss the status of the updated zoning ordinances. During this meeting, TSW agreed to re-examine the document and continue to work with the County Manager to reach a more simplified and streamlined version.

The Board of Commissioners has heard public comment and feedback from the Zoning Review Committee on the draft TSW submitted earlier this year. TSW will be working on a proposed timeline for the updated draft and assured the group they were taking into account what has been discussed in meetings and in the public forum concerning the first draft.

“We feel confident TSW will work with us and give Glynn County the product it asked for and what the community needs,” said Bill Fallon. “They were open to our concerns and understood changes needed to be made.”

TSW was contracted by Glynn County as a consultant to work on the updated zoning ordinances in 2019. TSW has locations in Atlanta, GA, Chattanooga, TN and Tulsa, OK specializing in community planning.
